## HOW TO SELECT THE CAB THAT IS RIGHT FOR ME.

Choosing cab components for your RANGER® is easy as 1-2-3:

1. What type of cab fits your needs and climate?
2. Which cab components fit your RANGER?
3. Which cab components do you need today?

You can purchase cab components along with your RANGER, and also add components later. It's as easy as 1-2-3.

### ATTENTION

Adding a Windshield to any open air vehicle causes a low pressure area behind the Windshield that attracts dust to this area. To minimize this effect, Polaris recommends the use of the Pure Polaris Rear Panel any time a Windshield is installed. Polaris does not recommend combining other components for other cabs.

### ATTENTION

Adding a Windshield to any open air vehicle causes a low pressure area behind the Windshield that attracts dust to this area. To minimize this effect, Polaris recommends the use of the Pure Polaris Rear Panel any time a Windshield is installed. Polaris does not recommend combining other components for other cabs.

### ATTENTION

Adding a Windshield to any open air vehicle causes a low pressure area behind the Windshield that attracts dust to this area. To minimize this effect, Polaris recommends the use of the Pure Polaris Rear Panel any time a Windshield is installed. Polaris does not recommend combining other components for other cabs.

### ATTENTION

Fully utilize venting features while charging RANGER EV.

Made of laminated automotive quality safety glass, the universal Windshield is constructed on a steel frame and features interior sound insulation. Windshield Venting enables the windshield to pop-out four-inches for additional ventilation.

Designed to provide greater ventilation inside the cab, the Windshield vent enables the Windshield to pop out 10 cm.

Windshield wiper kit comes equipped with motor blade arms, wiring and dash-mounted spring.

# WINCHES

>>>

**HEAVY-DUTY PULLING POWER.** Your RANGER is the hardest working, smoothest riding side-by-side on the planet. Add a Pure Polaris winch and it also gives you heavy-duty pulling power for clearing trails, hauling out docks, pulling a whitetail out of a ravine, navigating difficult terrain, self-rescue and much more. Our winches are designed and tested by Polaris engineers specifically for the Polaris RANGER, so you know they'll fit perfectly and give you years of rugged pulling power.

## A. POLARIS 2,042 KG. WINCH

This powerful winch is built to handle any heavy-duty task. It's a tough 1.6hp workhorse with 2,042 kg. of pulling power and is wired specifically for Polaris RANGER vehicles.

- The sealed motor and gear train allows for flawless operation in extreme conditions
- Mini-rocker corded switch
- Roller fairlead included
- Available in multi-mount, extreme and integrated

## B. WARN® RT 40 WINCH

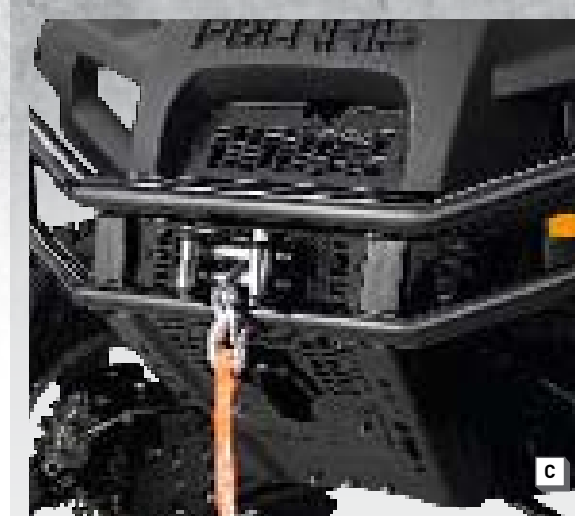

The rugged 4.0 ci Warn Winch will pull up to 1,814 kg. It fits perfectly on RANGER vehicles – right out of the box. The winch includes a handy remote control and a durable aircraft quality cable.

- Available in:
- Multi-mount
  - Extreme
  - Integrated

## WINCHES AND PLOWS GO TOGETHER

When buying a winch, remember that it can also be used for lifting and lowering a plow blade. Be sure to install the right winch for all your pulling and plowing jobs. See pages 48-52 for plow selection.

## C. INTEGRATED WINCH

Mounts behind the stock or accessory bumpers, includes mounting hardware & wiring.

Full Mold-Board Trip Mechanism keeps plow from getting caught on hidden obstacles.

Hydraulic Lift & Angling allows rider to position plow from inside the cab.

Multi-Position Plow Blade flares from 63.5cm at center to 77.5 cm on each end, providing serious carrying capacity and drift-busting power.

SmartShield® Paint Finish on all metal parts adds corrosion protection.

High-strength, 12.7 cm tall and 0.6 cm thick cutting edge adds wear resistance.

Width adjustable to 3 positions: Straight 2 m, VEE 1.75 m, Scoop 1.7 m to fit through narrow spots.

## C. THE BOSS® LIFT & CARRY DUMP BUCKET

- Carries and dumps fill dirt, landscaping rocks, wood, mulch and debris
- 227 kg lift capacity allows you to move some serious earth
- Corrosion resistant finish keeps it looking new for years to come

PART NO. 2877050

FITMENT MY 09-10 RANGER HD (Requires 2877047 - Lift System)

*\*Does not work with accessory brushguards or bumpers*

Features our high-gloss corrosion-resistant SmartShield® Paint Finish.

An extra large 0.1 cubic m., 227 kg capacity bucket, ensures riders will be able to move all their cargo in one trip.

To ensure long life, we've constructed this bucket of high strength 4-gauge steel.

## D. THE BOSS® LIFT & CARRY BRUSH GRAPPLE

- Picks up and hauls brush, thatch, logs, fence posts, straw and hay
- Hydraulic system holds grappled material
- Carries up to 227 kg

PART NO. 2877049

FITMENT MY 09-10 RANGER HD (Requires 2877047 - Lift System)

*\*Does not work with accessory brushguards or bumpers*

Double-acting cylinder on grapple arm provides superior hydraulic grappling power.

Grapple made of 0.5 cm Grade 80 Plate high-strength steel to ensure long life.

All metal parts painted with SmartShield® Paint Finish, featuring a zinc primer and baked-on finish coat for corrosion protection and long-lasting, high-gloss shine.

# THE BOSS® PLOW SYSTEM

**TAKE CHARGE.** The best name in off-road vehicles and the biggest name in plows teamed up to build this incredible plow package. This rugged plow system comes complete with all the latest heavy-duty features. And it's only available on the Polaris RANGER.

# GLACIER II HD PLOW

**LOCK & RIDE AND PLOW.** Want a rugged plow that's fast and easy to hook up, and doesn't require a winch? This is it. The new Glacier® II HD Plow is a fully featured, robust design. It has a beefy frame, an electric actuator that eliminates the need for a winch, plus the exclusive Lock & Ride® system for quick, easy hookups.

## A. THE BOSS® PLOW SYSTEM

- Lift, lower and change blade angle from inside the cab
- Hydraulics come off with the plow when detached
- Super-slick poly blade allows snow to slide off

PART NO. 2877046\*

FITMENT MY 09-10 4x4, XP, HD, MY 10 CREW, 6x6

PART NO. 2876870\*

FITMENT MY 05-08 2x4, 4x4, XP, MY 08-09 CREW, MY 05-09 6x6

\* Does not work with accessory brushguards/bumpers

All metal parts are coated with a zinc primer before the finish coat is applied and baked-on to protect against rust while providing a long-lasting, high gloss shine.

A

Unlike similar metal blades, our super-slick poly blade allows snow to slide off with less friction, resulting in less stress on the vehicle's drive train. And full color saturation keeps the plow looking new longer.

## B. GLACIER® II HD PLOW SYSTEM

- 183 cm plow blade with wear bar
- Electric actuator for up/down control
- Lock & Ride® design for easy on/off
- Manual angle adjust with adjustable shoes
- Requires Glacier II HD Plow Mount

Heavy-duty springs for added strength.

Electric actuator for blade level control from inside the cab.

Single-handle blade angle adjustment.

Adjustable kickstand aids in ease of installation.

## INSTALL IN SECONDS >

Using our exclusive Lock & Ride technology, the Glacier II HD Plow installs in seconds. Just drive up to it, clamp it down and you're ready to go.

## HERE'S WHY IT'S THE BOSS >

### HIGH-PERFORMANCE HYDRAULIC PACKAGE

Easily lift, lower and change blade angle from inside the cab. When plow is detached, hydraulics come off with the plow.

### SMART HITCH® 2 ATTACHMENT SYSTEM

Lets you attach and detach the plow with little or no effort.

### SMART TOUCH 2® CONTROL

Easy-to-use, designed for either right or left-hand use. Handle can be removed, providing several different mounting options.

### HEAVY-DUTY CONTROL PLUG

Large diameter connector pins provide extremely reliable electrical connection, even in extreme weather conditions.

# GLACIER II PLOW SYSTEM

**MOVE SNOW FAST.** The Glacier® II Plow is designed to move snow quickly and efficiently and is perfect for light to medium snow plowing applications. It features a winch shut-off that's unique to a blade this affordable. Because it uses our exclusive Lock & Ride® technology, the plow blade goes on and off in under a minute. It requires a winch, and works with all accessories and stock bumpers.

## A. GLACIER® II PLOW SYSTEM

Lock & Ride® installation is easy:

- Align your RANGER with Glacier® Plow System
- Position lever upwards to lock in place
- Attach winch hook to plow frame
- Raise the plow and get to work

Works with all Pure accessories and stock bumper. Requires a winch for proper operation.

# GLACIER® PLOW SYSTEM

**RUGGED AND AFFORDABLE.** Want to move a lot of snow for a little money? This is your plow. It features the exclusive Lock & Ride® technology, letting you put the plow blade on or off in less than a minute.

## RIMS & TIRES

**TIRES MAKE THE TRACTION. RIMS MAKE THE MACHINE.** How much traction you need depends on how and where you ride. That's why Pure Polaris offers such a wide variety of tires, including 26" Maxxis® Bighorn™ Tires mounted on our all-new 14" Machined and Flat Black SIXr Rims. And when it comes to rims, you can choose from a huge selection, many available in black or silver. Buy just the rims or go with the complete tire/rim package. Either way, you know you're riding on high-quality products from Pure Polaris.

# FIRE + RESCUE

**PERFORMANCE PARTNERSHIP.** Polaris was the first to introduce a hard-working, smooth-riding utility vehicle (UTV). RKO Enterprises was the first to introduce UTV-mounted Fire & Rescue platforms. Our two companies have teamed up to offer the ultimate off-road Fire & Rescue vehicles, designed to reach fires and emergency situations in areas with limited access and rugged terrain. All of these carefully engineered RKO Enterprises platforms are of the highest quality. They are designed to be used in the Polaris RANGER 6x6, featuring industry-leading utility, capacity and traction. Even fully loaded, the RANGER 6x6 delivers a smooth ride over rugged terrain, thanks to fully independent suspensions and true 6-wheel drive. Choose from a variety of Fire & Rescue Units to suit your exact needs.

## HOW TO SELECT THE CAB THAT IS RIGHT FOR ME.

Choosing cab components for your RANGER RZR® is easy as 1-2-3:

1. What type of cab fits your needs and climate?
2. Which cab components fit your RANGER RZR?
3. Which cab components do you need today?

You can purchase cab components along with your RANGER RZR, and also add components later. It's as easy as 1-2-3.

# POLY CAB

>>>

**OUR BEST YET.** The all-new RANGER RZR Poly Cab is our most advanced full-cab enclosure ever. It's perfect for anyone who wants maximum protection with minimum weight. All pieces integrate seamlessly with one another, creating a flat plane and a superior seal at the doors and windows. Large windows, including those on the lower half of doors, maximize interior brightness and external visibility. The roof and rear panel quickly attach using cab frame hooks and Lock & Ride® clamps. The new door design features dual hinges and premium latches. Components are made of durable polyethylene, with great fit and finish.

» **BEST FOR: MULTI-PURPOSE USE**

## » KEY FEATURES

- Best value hard cab
- Maximum ventilation with rear sliding window and vent
- New component designs create superior protection and visibility
- Steel frames on doors and pillars provide strength and durability
- Doors feature clear, screen-printed poly for side visibility
- Complete cab kit includes roof, doors and rear panel
- Works with poly or glass windshield, sold separately

# GLACIER® II PLOW SYSTEM

**THE ULTIMATE.** This is the absolute best plow system for your RANGER RZR. First, because our engineers designed and tested every component, so you know it fits, it works and it will last. Second, because it uses our exclusive Lock & Ride® technology for the fastest on/off capability in the industry.

## ORDERING A POLARIS PLOW SYSTEM

### STEP 1

#### SELECT A MOUNT

Our mount plates are designed exclusively for RANGER RZR models, not a "generic fit" design like our competitors.

### STEP 2

#### SELECT A FRAME

# RIMS & TIRES

**TREAD READY.** How much traction you need depends on how and where you ride. That's why Pure Polaris offers such a wide variety of tires, including the all-new 36 cm machined and flat black SIXr Rims and 66 cm Maxxis® Bighorn™ Tires. And when it comes to rims, you can choose from a huge selection, many available in black or silver. Buy just the rims or go with the complete tire/rim package. Either way, you know you're riding on high-quality products from Pure Polaris.

**NOTHING ELSE COMES CLOSE.** You won't find a better plow anywhere. Pure Polaris Plow Systems give you the ultimate combination of quality, engineering, fit and quick attach features for your Polaris ATV. Our exclusive Lock & Ride® Glacier I and Glacier II Plows install in 45 seconds or less without tools (after the initial install of the mount). Choose from a wide variety of plow systems to match your needs and budget. Just follow the step-by-step process shown below, or ask your Polaris dealer for assistance.

### BLADE WIDTH MATTERS >

When plowing, you want your tires to stay on the cleared path. Angling a 132 cm plow blade clears a path that's narrower than the width of a Polaris Sportsman. You'll be driving over snow yet to be plowed. For best snow plowing results, Polaris recommends a 152 cm plow for the Polaris Sportsman.

132 cm plow blade clears path less than the width a Polaris Sportsman

152 cm plow blade clears path greater than the width a Polaris Sportsman

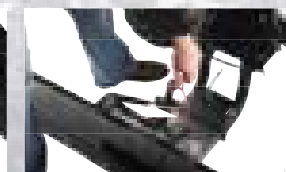

### GLACIER® II PLOW SYSTEM: THE FASTEST INSTALL AROUND

# WINDSHIELDS

**LOCK & RIDE® FOR EASY ON/OFF.** These are not just the best built windshields for your Polaris ATV, they're also the fastest-attaching windshields. They go on and off in seconds, so you can change your mind faster than the weather forecast. Choose from three heights to match your riding style and body type.

## INSTALLING A WINDSHIELD

Place clamps on handlebars

Align clamps with hinge

Lock clamps down

Height measured from top of pod to top of windshield.

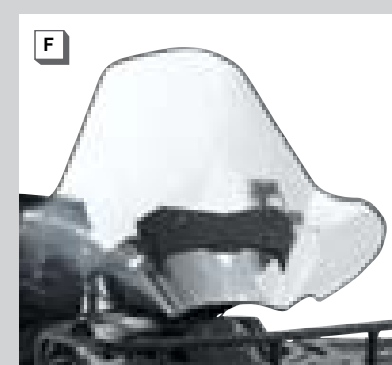

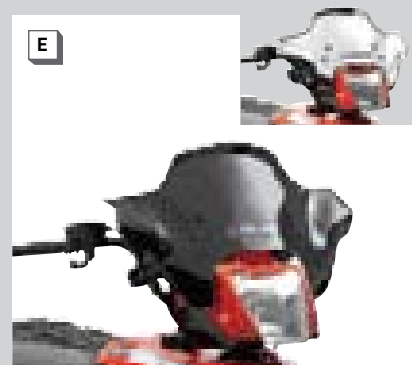

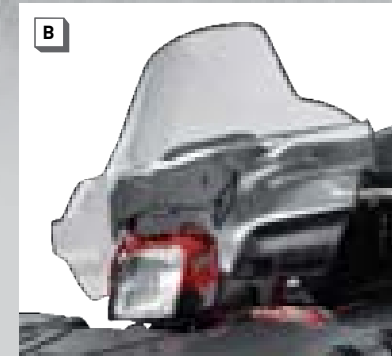

Polaris windshields are made with premium polycarbonate for ultimate durability and thickness.

## WHAT WINDSHIELD IS RIGHT FOR ME? >

### TALL WINDSHIELD

At over 49 cm tall, it offers full hand and upper body protection, and is the ideal choice for taller riders and for riding in extreme conditions and cold temperatures.

### MID WINDSHIELD

This all-purpose windshield is 38 cm tall, perfect for riders who want hand and upper body protection from the elements in a slightly lower, custom design.

### LOW WINDSHIELD

At 24 cm tall, our low windshields give your ATV a sweet custom look as well as lower body protection from wind and dust.

# MEN'S JACKETS

## THE ANATOMY OF EFFECTIVE LAYERING.

**PROTECTION LAYER:** Use a fabric that blocks wind and allows moisture to escape.

**INSULATING LAYER:** Use polyester or fleece. The fabric must be able to transfer moisture.

**BASE LAYER:** Use polypropylene or other fabrics that wick sweat away.

There is no perfect layering system. Every rider has different needs, depending on weather, altitude, riding style and body type. But there are basic rules for layering. The base layer needs to wick sweat away from your skin. Polypropylene is good, cotton is bad. The insulating layer must work with the base layer to transfer moisture. Polyester and fleece are best. A good outer layer must block wind and also allow moisture to escape. Add or remove layers as needed to stay warm and comfortable.

### STEP 1

- Base Layer
- Performance Shirt
- Polypropylene Thermal Shirt
- Polypropylene Pant

### STEP 2

- Insulating Layer
- Backcountry Riding Shirt
- Quarter-Zip Shirt
- Quarter-Zip Pant
- Barrier Fleece Jacket
- Barrier Fleece Vest

### STEP 3

- Protection Layer
- Mountain eVT Jacket
- Octane Jacket

The three layering combinations above contain different layers giving you different results. Try adding and removing layers to meet your level of warmth and comfort.

# OILS & LUBES

**KEEP YOUR ENGINE PURE.** Insist on Pure Polaris oils and lubricants. They are specially formulated to help you maintain your machine's high performance. Be sure to use them as part of your routine machine maintenance schedule.

This cam shows a worn lobe which can lead to reduced or even failed performance as a result of the use of inferior lubricants.

## PS-4 PLUS SYNTHETIC ENGINE OIL

Pure Polaris PS-4 Plus full synthetic 4-cycle engine oil is designed specifically for and recommended for all 4-stroke Polaris ATVs and RANGER® vehicles. It provides maximum engine protection and ultimate performance at extreme operating temperatures, hot or cold, plus improved cold temperature starting. With over 600,000 miles of testing and thousands of dyno hours, our oils are proven and tested before they ever reach the shelf in your garage, for the dependability and peace of mind that only Pure Polaris lubricants deliver.

- Provides superior performance in all Polaris applications, including wet clutches and gear boxes
- Protects in extreme operating temperatures generated by hard-riding or racing
- Available in quarts, gallons and oil change kits

PART NO. 2876244 946 ML (12 per case)

PART NO. 2876245 3.78 L (4 per case)

PART NO. 2876247 60.5 L Gallon

## ENHANCED LUBRICITY WITH PS-4 PLUS

Enhanced lubricity protects internal engine parts. PS-4 oil offers outstanding film strength that coats and protects, to drastically reduce sliding friction, providing optimum hydrodynamic lubrication. Polaris 4-cycle engines generate high horsepower from small displacement platforms, resulting in high temperature strains on piston, rings, crankshaft, bearings and other internal engine components. PS-4 PLUS' synthetic base stocks and optimized additive chemistries assure the best lubricity, to protect and prolong the life of these internal components.

# MAINTENANCE

**POWER & PERFORMANCE.** Your Polaris ATV or Side-by-Side is built to take a pounding on the toughest terrain on earth. Keep it that way by following maintenance schedules and insisting that all the filters, oils and lubricants used in your machine are Pure Polaris. They're designed and formulated specifically for your Polaris vehicle, with the highest quality ingredients to keep the engine, transmission, drive train, suspension and brakes operating at peak performance.

## C. OIL FILTERS

- Manufactured at a higher standard - uses only the highest quality materials
- Designed to better handle the oil volume and flow of Polaris engines
- Clean oil increases engine life. For most ATVs and RANGERS, oil and filter should be changed initially at 25 hours on new engines and every 100 hours or 6 months after that (25-50 hours for severe duty). For Outlaws, the initial change is at 3 hours and every 15 hours or 6 months (whichever comes first) after that.
