BRUTE FORCE® 750 4x4i
VENTURE
BEYOND

How do you take command of the great outdoors? With brute force. Powered by a fuel-injected 749cc V-twin engine that delivers mammoth power, the Brute Force® 750 4x4i and Brute Force 750 4x4i EPS ATVs offer unrivaled performance for climbing, hauling and even towing.

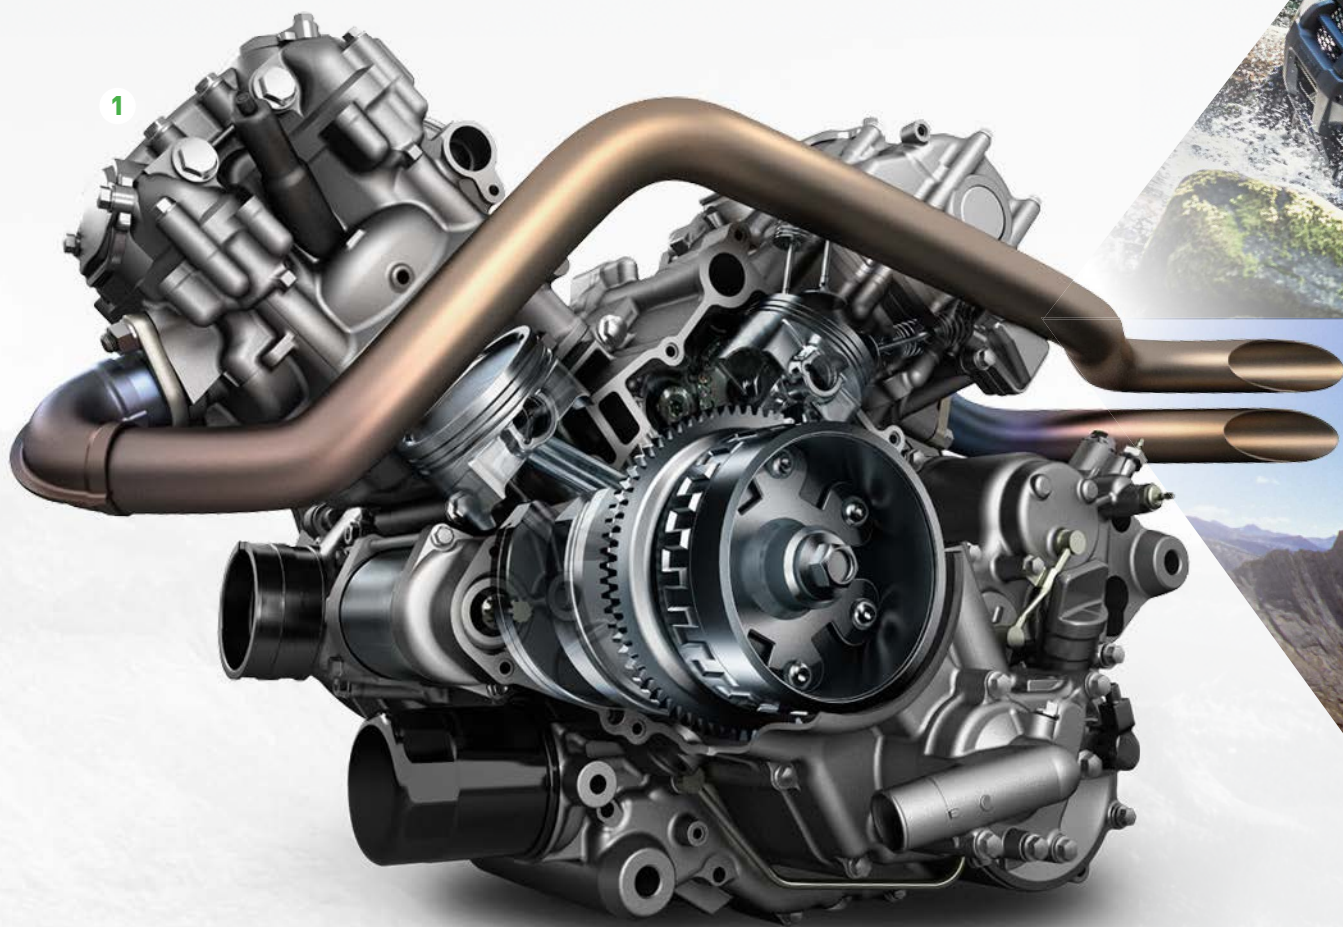

Solid construction including a sturdy reinforced double-cradle frame and independent suspension complements the big muscle of the Brute Force 750 ATVs. Need to carry cargo? Robust cargo racks can carry ample cargo and include integrated tie-down hook loops. With a powerful engine, sport-capable suspension and reinforced chassis, the 2017 Kawasaki Brute Force 750 4x4i ATVs have the rugged strength and agility to take on the toughest trails.

BRUTE FORCE® 750 4x4i

2017

BRUTE FORCE® 750 4x4i

PRIMAL POWER

2

1 V-TWIN POWER

The fuel-injected 90-degree 749cc V-twin engine is well balanced to minimize vibration for smooth acceleration. Power is tuned to pump out strong low-rpm torque for incredible low-speed power, while precise fuel metering allows for easy starting and optimum fuel mileage.

2 COMPACT CVT

The Kawasaki Automatic Power-Drive System's (KAPS) Continuously Variable Transmission (CVT) is fully automatic, providing increased control during low-speed operation, and smooth transition into higher rpm range for snappy throttle response and class-leading acceleration. Kawasaki Engine Brake Control automatically compensates for CVT belt wear to maintain consistent engagement and provides engine braking for additional slowing power when descending hills.

3 FINAL DRIVE

Command the Brute Force® 750 4x4i ATV through a variety of terrain with selectable two- or four-wheel-drive modes—switchable at the press of a handlebar button. Variable front differential control lever allows the rider to control the amount of slip to the front wheels and maximize traction while the Cardan drive shaft joints absorb torque fluctuations.

3

BRUTE FORCE® 750 4x4i

BUILT TO LAST

1 CHASSIS

The durable double-cradle frame of the Brute Force® 750 4x4i ATV is reinforced for added strength. Independent double wishbone front suspension, and double A-arms in the rear carry preload-adjustable shocks providing 6.7 inches of travel up front and 7.5 in the rear for a comfortable ride.

2 STOPPING POWER

Dual disc brakes with two-piston calipers in the front and Kawasaki's sealed, oil-bathed multi-disc brake system in the rear add up to exceptional stopping power. Paired with the electronic Kawasaki Engine Brake Control, you can take on descents with confidence.

3 ROUGH TERRAIN CAPABILITY

A short wheelbase, tight turning radius (10.5 feet), and 9.4 inches of ground clearance combine for exceptional maneuvering and capability. A generous 1,250-pound towing capacity and two-inch receiver hitch adds to the capabilities of the Brute Force 750 4x4i ATV, making it an asset for any homesteader.

BRUTE FORCE® 750 4x4i

EPS & EPS CAMO FEATURES

SPEED SENSITIVE ELECTRIC POWER STEERING (EPS)

The Brute Force® 750 4x4i EPS ATV and Brute Force 750 4x4i EPS Camo ATV are equipped with a smart Electric Power Steering unit, helping optimize performance through steering assistance. The intuitive system offers maximum assistance at low speeds for effortless maneuvering and reduced assist at higher speeds for optimized feedback. It also helps to absorb kickback before it reaches the handlebars.

PREMIUM STYLING

The rugged bodywork of the Brute Force 750 4x4i EPS gets a touch of class with its stunning and durable Metallic Flat Raw Graystone painted finish. Melt into the brush with the stealthy and durable Realtree Xtra® Green Camo finish, available on the Brute Force 750 4x4i EPS Camo edition.

BRUTE FORCE® 300

TIMBERLINE GREEN

BRUTE FORCE® 300

MID-SIZE

MASTERY

The sporty and versatile Brute Force® 300 ATV is as useful at the homestead as it is fun on the trails. With its mid-size 271cc engine, the Brute Force 300 can get around your property quickly and easily, whether you're tending the orchards or moving equipment. The Brute Force 300 provides nimble capability with low effort steering, making it a willing accomplice for the active outdoorsman. Packed with popular features, the Brute Force 300 is as practical as it is versatile, making it an optimum value with an adventurous spirit.

BRUTE FORCE® 300

POWER PLAY

1

SUPER BLACK

1 COMPACT POWER

Whether it's work or play, get it done with ease from the seat of the Brute Force® 300 ATV. A powerful, sporty 271cc single-cylinder engine and efficient CVT offer smooth, responsive power, making it the ideal companion for anyone from the outdoor adventurer to the busy homesteader.

2 SPORT CHASSIS

A rigid heavy-duty steel-tube frame helps give the Brute Force 300 ATV superb straight-line performance and handling, while long A-arms and sporty, independent front and rear suspension offer a predictable and comfortable ride. Dual front 180mm disc brakes and single 180mm rear disc brake offer excellent stopping power, adding to its sporty off-road prowess.

COMFORTABLE

CAPABILITY

2

TIMBERLINE GREEN

1 CARGO AND TOWING

Already a versatile performer, the Brute Force® 300 ATV features even more dexterity with its cargo and towing capacity. Front and rear racks can take on 44 and 66 pounds, respectively, while this compact workhorse can tow another 500 pounds.

2 COMFORT AND STYLE

The Brute Force 300 ATV provides spacious ergonomics and a comfortable riding position. Full coverage floorboards with slightly raised footpegs increase rider comfort and provide some splash protection. Go out and take on the day in style with the rugged and modern appearance of the Brute Force 300.

BRUTE FORCE® 750 4x4i EPS

KFX®90/KFX50

SMALL BUT MIGHTY

1 PERFECT FOR KIDS

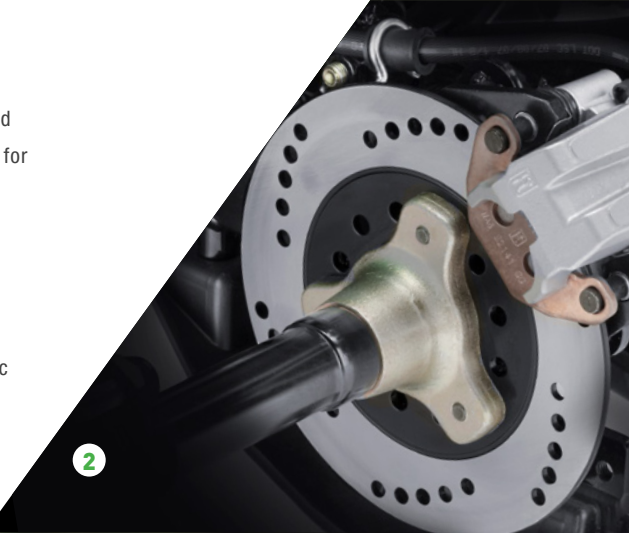

Get your kids off to the right start aboard Kawasaki's youth-sized KFX® ATVs. The air-cooled four-stroke engine starts with the push of a button and the smooth, reliable power is ideal for learning riders. The CVT means no shifting, so young riders can focus on throttle and brake control.

2 POWERFUL BRAKES

The KFX90 and KFX50 can slow down in a hurry with two front drum brakes and a rear disc brake. All three brakes are operated by handlebar-mounted levers. At foot level, full-length floorboards enable better rider balance and help keep little feet protected.

3 PARENTAL CONTROLS

Parents can supervise the start of the vehicle with the help of a keyed ignition while a throttle limiting screw enables them to restrict throttle opening to keep speeds matched to operator skill level. A collar in the Continuously Variable Transmission (CVT) can easily be removed for increased speed as riders gain experience.

KFX® 90

KAWASAKI STRONG

MUCH MORE THAN MOTORCYCLES

BULLET TRAINS

You already know KHI builds machines that move people. But, did you know it also builds machines that move thousands of people—all at once? We're talking trains here. From New York City subway cars to Japan's hyper-speed bullet trains, Kawasaki has been in the business since 1906. Whether a 186-mph bullet train or a 1,441cc Ninja® ZX™-14R motorcycle, KHI likes to believe that the technology that goes into moving thousands of people has a positive effect on how it goes about moving just one.

MOTORCYCLES

Since KHI built its first motorcycle engine in 1953, it has never stopped pushing technology to arm riders with what they need to dominate the streets. Advanced engineering, exhaustive testing and tireless passion go into every motorcycle every time rubber hits the road. From industry-first features to the features that have evolved over a long history, KHI's innovations will never stop feeding the insatiable appetites of riders around the world.

ROBOTICS

If robots are the future, then KHI has been shaping it since 1969 when the company built its first industrial robot. KHI continues to be a leader in the development of robots for a diverse number of processes including: assembly, handling, welding, painting and sealing. Kawasaki robot technology is being used every day to manufacture motorcycles and other products.

KAWASAKI HEAVY INDUSTRIES, LTD. (KHI)

With 130 years of Kawasaki Heavy Industries, Ltd. (KHI) engineering building the heaviest, most durable and complex machines on the planet, Kawasaki STRONG is a name we can claim. KHI builds tunnel-boring machines that connect continents and trains that carry millions of New Yorkers in and out of the city 24 hours a day, seven days a week. From these engineering monsters to the last bolt on the Brute Force® 750 4x4i EPS, KHI engineering says, over and over: Use me. Rely on me. I'm built to work.

WARRANTY

Your new Kawasaki ATV comes with a 12-month limited warranty. Ask your dealer for details about the factory warranty and available extended coverage.

UP TO FOUR YEARS ADDITIONAL COVERAGE

Let Kawasaki protect your new ATV for years to come with Kawasaki Protection Plus™. This plan repairs or replaces most components free of charge if found defective in material or workmanship. Everything about the plan is easy. There's no deductible. It's honored at every authorized Kawasaki dealer nationwide. It's transferable to another owner with no fee. Just ask your dealer how you can buy additional coverage of 12, 24, 36, or 48 months (depending on the model and plan purchased). FL Lic #65500, Kawasaki Motors Corp., U.S.A., PO Box 25252, Santa Ana, CA 92799, (949) 770-0400.

KAWASAKI CARES

Warning: ATVs can be hazardous to operate. For your safety: Always wear a helmet, eye protection, and protective clothing. Never carry a passenger. Never ride under the influence of drugs or alcohol. Never ride on public roads or pavement. Avoid excessive speeds and stunt driving. Be extra careful on difficult terrain. Kawasaki's KFX®50 is recommended for use only by persons 6 or older, and the KFX®90 is recommended for use only by persons 12 and older. All children under 16 riding ATVs should always have direct adult supervision. Kawasaki ATVs with engines over 90cc are recommended for use only by persons 16 years of age or older. Read Owner's Manual and all on-product warnings. Kawasaki also recommends that all ATV riders take a training course. For more information, see your dealer, call the ATV Safety Institute at 1-800-887-2887, or go to www.atvsafety.org.

Assembled in the U.S.A. badge applies to Brute Force® 750 4x4i models only.
