DOMINATING POWER

V-TWIN POWER

The V-twin fuel-injected 783cc engine produces the power needed to take on challenging terrain. With strong low- and mid-range torque, it provides the muscle to conquer tough trails.

DOUBLE-X FRAME

The strength and durability of Teryx® side x sides start at its core with the lightweight and tough Double-X welded main frame.

Teryx4™ LE in Metallic Carbon Gray

Teryx4™ in Bright White

CONTINUOUSLY VARIABLE TRANSMISSION (CVT)

Power delivery is instant thanks to an automatic Continuously Variable Transmission (CVT) and centrifugal clutch. Precise throttle response means confident driving, while automatic engine braking helps you take on challenging descents.

TERYX4™ AND TERYX®

CONQUER THE OUTDOORS

TOWING CAPACITY

Teryx4™ and Teryx® side x sides are well adept when it comes to hauling and towing, whether you're transporting cargo or taking the boat out for a day at the lake. A 1,300-pound towing capacity available via a standard two-inch receiver makes for versatile adventure machines.

POWERFUL BRAKING

Superior stopping power keeps you in command. Front dual disc brakes gripped by twin-piston calipers work with steel braided lines and a sealed, oil-bathed multi-disc brake to provide confident stopping power.

MULTIFUNCTION DIGITAL DISPLAY

Check the speedometer, fuel gauge, clock, and much more with an easy-to-read multifunction digital display. The dash-mounted meter provides convenient vehicle information at a glance, like total miles, water temperature, and low-oil pressure indicators.

ELECTRIC POWER STEERING (EPS)

Speed-sensitive EPS enhances performance by offering maximum assistance at lower speeds along with reduced effort and greater feedback at higher speeds. Drive with confidence knowing the EPS provides precise steering, smooth feel and predictable operation that will help get you where you want to go.
