Kawasaki

JETSKI ULTRA 310LX

Performance Meets LXury

The Jet Ski Ultra 310LX is the most powerful production personal watercraft in the world.

It is also one of the most advanced, with Deep-V hull that provides class-leading performance in any water situation, exclusive Jetsound audio system and seating for three people. The seat is an industry first heat-resistant fabric. The superior luxury and comfort continues through to the riding position with a 5-position adjustable handlebar.

*Horsepower measured in PS at the crankshaft under controlled conditions. Actual performance may vary.

SUPERCHARGED POWER

The 1,498cm³, in-line 4-cylinder engine is fitted with a TVS Eaton supercharger featuring twin four-lobe rotors which produce a continuous delivery of air to achieve an astonishing 310 horsepower*

LXURY SEAT FOR 3

Contoured for a superb ergonomic fit, the LXurysat offers a comfortable, secure and planted feel. The cover material is engineered to resist gaining heat while sitting in the sun between rides.

STORAGE

The Ultra 310LX features a useful front storage compartment, with removable tray, and convenient centre console. The underseat storage area is ideal for recreation items like a ski rope. Total storage capacity of 212L on the Ultra 310LX.

JETSOUND AUDIO

The world's first PWC audio system includes an amp and audio controller (built in the handle), and two speakers (below the mirrors). Compatible with most phones and audio players.

BEGINNER FRIENDLY

SLO (Smart Learning Operation Mode) limits engine rpm to reduce maximum speed by approx. 30% so that novice users can practice manoeuvring until they become more familiar with its operation.

JETSKI ULTRA 310X

Push the Performance Envelope

SUPER CHARGED

CRUISE CONTROL

The Ultra 310X - part of the family and one of the most powerful production personal watercraft in the world.

Advanced technology including Electronic throttle valves (ETV), cruise control and fuel economy assistance mode. Kawasaki Smart Steering adds to the enjoyment and ease of riding on this powerful Jet Ski. Superb storage capacity, clear instrumentation, large fuel capacity and the Kawasaki Smart Learning Operation mode makes this the ski for everyone.

310 SUPERCHARGED HORSEPOWER

The 1,498cm³, in-line 4-cylinder engine is fitted with a TVS Eaton supercharger featuring twin four-lobe rotors which produce a continuous delivery of air to achieve an astonishing 310 horsepower*

RACE BRED HULL DESIGN

Designed using feedback from Kawasaki's IJSBA Championship winning machines, the hull offers the industry's best stability with responsive handling in calm and rough water.

FUEL INJECTED

High-flow fuel injectors with 4 orifices are fitted to complement the power output and to improve combustion efficiency. A single throttle body is used with a bore diameter of 60 mm.

ADJUSTABLE HANDLEBARS

The handlebars are adjustable to suit a wide range of riders and riding styles and to enable comfortable stand-up or seated riding positions. *The Ultra 310X features 5-positions, while the Ultra 310R features 18-positions.

JETSKI ULTRA 310R

The Ultimate Sports Machine

PURE
SPORT
RIDING

The Ultra 310R is the racing equipped member to the Ultra 310 family. Equipped with 18-position MX style handle bar and the body-active, gripper sport riding seat.

Supremely finished in Kawasaki traditional racing livery. Smooth throttle response and boost from idle results in smile creating acceleration. This unit is ready to take on some serious fast and fun riding.

FUEL ECONOMY ASSISTANCE MODE

This rider-activated mode switches the ECU to a leaner fuel map that prioritises fuel economy over performance to significantly increase range during stop-start riding.

LARGE CAPACITY STORAGE

The huge 200 litre front storage compartment comes with removable tray. There's also a centre console storage area with a detachable drink holder with space for two water bottles.

ALL-DIGITAL INSTRUMENTATION

The highly visible LCD instrumentation display accommodates the engine's various riding modes, as well as a Current Fuel Consumption function (measured at 1 second intervals).

SMART LEARNING OPERATION

SLO (Smart Learning Operation Mode) limits engine rpm to reduce maximum speed by approx. 30% so that novice users can practice manoeuvring until they become more familiar with its operation.

Kawasaki

JETSKI SX-R

Ignite the Fun

WORLD'S
FASTEST
PRODUCTION
STAND-UP

4-STROKE
STAND-UP

This is Kawasaki in the original style - the Stand-Up Jet Ski.

Since the first Jet Ski rolled off the production line, over 40 years ago, Kawasaki Jet Ski watercraft have supplied high-powered thrills on the water and the SX-R is the next wave of the legacy. Broad range 4-stroke power and agile rider-active handling, the Jet Ski SX-R breathes life and excitement into the Stand-Up watercraft category. The Jet Ski SX-R is here and ready to reclaim the Kawasaki status as the king of Stand-Up watercraft.

MASSIVE POWER

The DOHC, 16 valve, fuel injected, 4-stroke, 4 cylinder engine produces strong acceleration and high top speeds. The SX-R is ready to ride and ready to race.

STAND-UP STYLE

The SX-R's sleek and sharp lines evoke the highly successful 800 SX-R while giving the new machine a distinct Kawasaki look and staying true to its racing heritage. An MX-style handlebar feels great to use and adds to the sporty looks.

FAST AND STABLE

The SX-R has agile handling, great stability, smooth power delivery contributing to high cornering speed. The SX-R is impressively well balanced to ensure reliable cornering grip.

RIDER ACTIVE HULL

Designed to house the large engine, the long, wide stand-up hull offers the best of both worlds: agile handling and superb stability.

PERFORMANCE DECK

The SX-R hull has a wide floor area. This is most noticeable at the front. The deck area enables freedom of movement. The forward slant on the deck assists the rider to brace against the SX-R strong acceleration.

Kawasaki

JETSKI *ULTRA LX*

New Levels in Family Fun

The ultimate combination of abundant power, precise handling and all day comfort in a naturally aspirated package.

The Kawasaki Jet Ski Ultra LX is the choice for discerning watercraft enthusiasts. Inline, 4-cylinder marine engine with Kawasaki Smart Steering system and the Smart Learning Operation. Class-leading fuel capacity enable more hours of fun on the water without the worry of constant refuelling. Seating for three people, the Ultra LX is the perfect recreation watercraft for you or the family.

HULL DESIGN

The hull design is loaded with high-performance technology derived from Kawasaki's championship winning machines, handling with precision and stability in both rough and calm water.

SPLASH DEFLECTORS

Kawasaki Splash Deflectors (Ridges across the bottom of the bow) deflect water splashing forward from under the hull. The fourth top-mounted splash deflector reduces spray during high-speed turns.

LXURY SEAT

The ULTRA LX is equipped with the LXurysat - a scalloped seat designed for enhanced cruising comfort. The seat is contoured for a superb ergonomic fit and accommodates for three.

NINJA BASED ENGINE

Kicking out an impressive 160 PS at 7,500 rpm, the liquid-cooled, 1,498cm³ in-line 4-cylinder Ninja supersport-based engine delivers the responsive performance that sport riders love.

RIDER ERGONOMICS

Kawasaki Smart Steering equipped. Features 5-way adjustable handlebar, and a steering sensor linked to the ECU to aid in boat handling when the throttle is quickly released from high speed.

BEGINNER FRIENDLY

SLO (Smart Learning Operation Mode) limits the top speed by up to 30%. This will assist a new rider learning the capabilities of the Ultra LX.

JETSKI STX-15F

Let's Get it Started

NON
SUPER
CHARGED

SMART
FUN

The Kawasaki STX-15F is the smooth water specialist with a powerful engine and an agile composite hull that delivers sporty handling for an exhilarating ride.

The Jet Ski for the recreational rider seeking a responsive watercraft with smoothly delivered power from a naturally aspirated marine engine. The large rear deck offers plenty of room for easy boarding. The Smart Learning Operation mode assists new rider to get to know the Kawasaki Jet Ski at their own pace and the Kawasaki Smart Steering system makes maneuvering the STX-15F easy to control.

SMART STEERING EQUIPPED

Designed to assist inexperienced riders, the Kawasaki Smart Steering system automatically adjusts engine speed and thrust while cornering to ensure a smooth, controlled turn.

SMART LEARNING OPERATION

Smart Learning Operation (SLO)-Mode allows newer riders to become familiar with the handling and response at a more relaxed pace before operating the STX-15F at full power. Two separate keys (one for SLO-mode, one for full-power operation) prevent operating mistakes.

HIGH PERFORMING ENGINE

The STX-15F's high-performance, 1,498cc, 4 cylinder, DOHC, fuel injected, 4-stroke engine was adapted from technology developed through Kawasaki's leading edge range of Ninja sports motorcycles.

EASY REVERSING

Greatly assisting low-speed manoeuvring is a reverse 'bucket' fitted to the steering nozzle. Shaped to deliver optimal thrust and directional control when reversing.
