Kingpin owners come in as many styles as their bikes. Good thing we offer five distinctive exhaust styles that will fit no matter what your tastes are. Long and low drag pipes or the latest 2-into-1 and of course the swept pipes introduced last year always turn heads. Choose wisely, but know that no choice is wrong.

# TECHNICALLY, CAN YOU COVET YOUR OWN CHROME?

That may be a gray area. What isn't a gray area is the screaming highlights and depth coming off the chrome grips of your choosing. Whether you're all about solid chunks of chromed billet from Ness, prefer the vibration dampening qualities of comfort grips or need a heated grip for those cool mornings or nights that you roll well into the darkness, we've got you taken care of. After you've made this tough choice, adding the matching footpegs should be easy.
