Everyone has custom wheels on their trucks and cars, there's no reason not to have that same styling option on your bike. And no, we're not talking 20's or 24's or spinners. What we are talkin' about is a great range of cast aluminum, two-tone, blacked out and billet wheels to turn your Victory into rolling art. Add a chrome pulley and you've got a whole new look to your bike.
