VULCAN® S MOTORCYCLES

# WILD AT HEART

With the heart of a sportbike and the comfort of a classic cruiser, Kawasaki brings together the best of both worlds in the groundbreaking Vulcan® S ABS motorcycle. The capable torque and responsive chassis offer an exhilarating and confidence-inspiring ride that appeals to new and experienced riders alike. High rpm power and generous lean angles can take you for an exciting ride, while the added benefit of Kawasaki ERGO-FIT™ adjustable components make the Vulcan S the ultimate in versatility for riders of varying stature. Find your fit and begin your journey into motorcycling with the Vulcan S motorcycle.

# ERGO-FIT™ COMFORT

One size fits all? Not when it comes to your ride. Take control with ERGO-FIT™ adjustability—a Kawasaki system of adjustable components that offers 18 different configurations for your height, size and preference. As an added bonus, the selected ERGO-FIT parts will be fitted to the motorcycle at the time of purchase to ensure customers leave the Kawasaki dealership with the ideal fit. Experience the comfort of the ERGO-FIT system, available through your participating Kawasaki dealer for every Vulcan® S motorcycle.

## 1 INTERCHANGEABLE SEAT

Three different ERGO-FIT™ seat positions allow riders of varying stature to select the right location and best hip support on their Kawasaki Vulcan S cruiser.

## 2 VERSATILE HANDLEBARS

Find a comfortable reach to the grips with your choice of accessory handlebars and personalize the fit with standard adjustable clutch and brake levers.

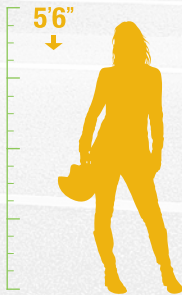

## 3 ADJUSTABLE FOOTPEGS

Legs long and short can go the distance in comfort with factory-installed three-position adjustable footpegs, complemented by accessory shift-linkage rods for uncompromised control.

## CONFIGURE YOUR ERGO-FIT

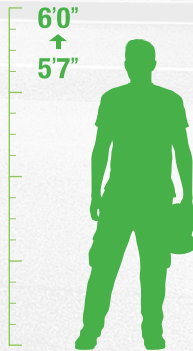

### REDUCED REACH

- › Designed for riders 5'6" and under
- › ERGO-FIT Reduced Reach Handlebar decreases reach by 1 inch
- › ERGO-FIT Reduced Reach Seat moves you forward 2 inches
- › Footpegs are adjusted 1 inch closer\*

### MID REACH

- › Designed for riders from 5'7" to 6'0" tall
- › ERGO-FIT Mid Reach Handlebar is in the factory-installed position
- › ERGO-FIT Mid Reach Seat is tapered for an easy reach to the ground
- › Footpegs are in factory position

### EXTENDED REACH

- › Designed for riders 6'1" tall and above
- › Handlebar levers are adjusted away from the handlebar
- › ERGO-FIT Extended Reach Seat moves hip support back 1 inch
- › Footpegs are adjusted 1 inch forward\*

\*Accessory shift-linkage rods required when changing footpeg position from standard.  
Height ranges are a suggestion. Individual fit may vary.

VULCAN® S MOTORCYCLES

# POWER AND PRECISION

## 1 ENGINE

Derived from the Kawasaki Ninja® sportbike, the 649cc parallel twin engine of the Vulcan® S ABS motorcycle turns out incredibly smooth power, tuned for a strong delivery in the low- to mid-range. Predictable roll-on power helps build confidence while the sportbike DNA of the Vulcan S cruiser shines through as the revs climb, offering a surprisingly spirited ride in the high-rpm range. The compact engine contributes to the overall lightweight and effortless handling of the Vulcan S, making it both friendly and appealing to riders looking for some sport muscle.

## 2 SUSPENSION

The Vulcan S is built to accommodate a variety of riders not only with its adaptable ergonomics, but with its suspension, too. The rear shock features a seven-position preload adjuster that can optimize the rear suspension for the rider and/or cargo weight, ensuring a smooth, comfortable ride for a wide range of riders. Adjustments can be made to suit rider preference—a softer setting for a plush feel or stiffer setting for a sportier ride.

## 3 WHEELS & TIRES

Sportbike-inspired wheels and performance tires enable responsive handling and highlight the generous lean angles of the Vulcan S. With a focus on fun, the stylish twin-spoke alloy wheels and radial tires grip the ground with sure-footed control for a predictable ride. Working in tune with the slim, lightweight chassis, the ground-gripping proficiency of the Vulcan S provides confidence for riders, while also offering sporty capability.

VULCAN® S ABS CAFÉ

# STREET APPEAL

Forget what you know about traditional cruisers and meet the new Vulcan® S ABS Café motorcycle. This sporty take on the versatile Vulcan S challenges the limits of what a cruiser can be. The Ninja® sportbike inspired Vulcan S ABS Café brings a combination of power and performance to the surface in a bold new style like you've never seen before. Challenge the standard of the everyday cruiser and redefine fun with the Vulcan S ABS Café.

## 1 AGGRESSIVE STYLING

The Vulcan S ABS Café cruiser features an aggressive new appearance, while retaining its low seat height and relaxed rider position. New three-tone paint, signature tank badging and sport striping emphasize the sportbike spirit of the Vulcan S model. Along with its distinct appearance, the Vulcan S ABS Café is available with the same selection of ERGO-FIT™ accessories to ensure the right fit for a wide variety of riders.

## 2 WIND DEFLECTOR

The Vulcan S ABS Café cruiser is characterized by a unique wind deflector over the headlight. This compact, dark-tinted deflector helps deflect wind away from the rider for a more comfortable ride.

# ACCESSORIES

## PERSONALIZE YOUR RIDE

The ERGO-FIT™ system of adjustable components for your Vulcan® S motorcycle is only the beginning. Kawasaki is proud to offer a variety of accessories designed exclusively for the Vulcan S Series. Personalize your Vulcan S with any number of Kawasaki Genuine Accessories or with a recommended accessory package. Kawasaki Genuine Accessories provide an integrated fit, easy installation and are tested to meet Kawasaki standards.

## KAWASAKI GENUINE ACCESSORIES ARE:

### DEVELOPED BY KAWASAKI ENGINEERS

This ensures a perfectly integrated fit, easy and seamless installation, and long-lasting dependability.

### THOROUGHLY TESTED

These accessories meet the same stringent quality standards as every Kawasaki motorcycle, as a result of exhaustive testing by Kawasaki engineers.

### WARRANTY COMPLIANT

Kawasaki Genuine Accessories never compromise the status of your optional Kawasaki Protection Plus™ plan, unlike some third-party parts.

## VULCAN® 900 MOTORCYCLES

# REBEL SOUL

Turn heads as you take on your next adventure aboard a Kawasaki Vulcan® 900 Series motorcycle. Right off the showroom floor, the 900cc V-twin has all the style and attitude of a one-of-a-kind build. From the detailed paint job on the tank and fenders to the thunderous exhaust, every Vulcan 900 Series motorcycle is an artful expression of individuality, much like the ride itself. The appearance of the Vulcan 900 cruiser stands in almost stark contrast to its smooth ride, efficient power and steadfast reliability. Powered by a potent, fuel-injected 55-degree 903cc V-twin, the Vulcan 900 Series offer ample low- to mid-range torque with a smooth-shifting five-speed transmission and a stable, responsive chassis. Enjoy the dynamic fusion of hand-built design and production quality with the Vulcan 900 Series—a tantalizing combination that could only come from Kawasaki.

**VULCAN® 900 CUSTOM**

METALLIC MATTE CARBON GRAY  
METALLIC MATTE GRAPHITE GRAY

VULCAN® 900 CUSTOM

# A CUSTOM CREATION

## 1 STYLE

The unique style of the Vulcan® 900 Custom motorcycle can be found in its contrasting design elements—smooth, flowing lines of the bodywork meet the angular details of the slash-cut mufflers and the chromed drag-style handlebar. The combination of glossy black finish and the matte black elements creates an eye-catching dynamic, with the detailed paint job of the contoured fuel tank and fenders highlighting the signature look of the Vulcan 900 Custom. Stand apart with the style of the Vulcan 900 Custom and ride with the thrill of Kawasaki performance.

## 2 SEAT

The gunfighter-style seat of the Vulcan 900 Custom lends to its custom appearance and edgy profile. The rider sits low in the chassis, allowing for a comfortable ride and an easy reach to the ground, as well as a low center of gravity for improved handling. The forward-mounted footpegs enhance the seating position while also improving rider control.

## 3 WHEELS

Cast spoke wheels of the Vulcan 900 Custom feature a glossy black finish with green detailing for a distinctive hand-made look. The tall front wheel crafted with a 3D twin-spoke design is among the standout characteristics of the Vulcan 900 Custom. The eye-catching 21-inch front wheel provides light steering and easy maneuvering and is contrasted by a wide 15-inch rear wheel. The Vulcan 900 Custom puts power to the ground with a beefy 180mm rear tire—the widest in its class—giving it a distinct big bike feel and lively performance.

Kawasaki

VULCAN® 900 CLASSIC

# THE CLASSICS ARE ALWAYS IN STYLE

The Vulcan® 900 Classic motorcycle offers clean, flowing lines for a classic look. Powered by a 55-degree, fuel-injected, 903cc V-twin engine, the Vulcan 900 Classic has the muscle to match its bold appearance. A plush, bucket-shaped seat and spacious floorboards give the Vulcan 900 Classic the comfort for all-day cruising. Set sail on the highway with the timeless appeal of whitewall tires and spoked wheels with minimalist styling. Enjoy the pure freedom of the open road with this classic Kawasaki V-twin cruiser.

## 1 SCULPTED FUEL TANK

A beautifully sculpted 5.3-gallon fuel tank serves as the centerpiece of the Vulcan 900 Classic motorcycle, offering class-leading capacity and head-turning style. In keeping with its clean lines and minimalist styling, the fuel tank also houses the sleek instrument panel. The solo gauge indicates speed and fuel level, plus odometer and trip meter functions—it's everything you need for a pure classic ride.

## 2 WHITEWALL TIRES

A true classic isn't complete without the prominent look of whitewall tires and spoked wheels. The Vulcan 900 Classic boasts these signature style elements, complemented by the full-coverage cut of the fenders for a distinguished look sure to please any true classic enthusiast. Performance tires, including a wide 180mm rear, offer modern performance with premium handling capabilities for a steady grip on the road and a fun ride.

2

VULCAN® 900 CLASSIC LT

# NOTHING BEATS A CLASSIC

## 1 HEIGHT-ADJUSTABLE WINDSHIELD

Riders come in all shapes and sizes, which is why the chrome-trimmed acrylic windscreen of the Vulcan® 900 Classic LT motorcycle is height-adjustable. Divert airflow around you for a more comfortable ride.

## 2 LEATHER SADDLEBAGS

Enjoy the convenience of ample onboard storage with reinforced, top-grain leather saddlebags. Carry extra gear on a weekend adventure or bring groceries home from the store in the high-capacity bags. Deep-dyed leather provides a sharp look and natural finish, while the chromed-brass studs and concealed quick-release fasteners provide seamless style with the Vulcan 900 Classic LT cruiser.

## 3 2-TONE PAINT

The classic two-tone paint job on the fuel tank and fenders give a streamlined look to the Vulcan 900 Classic LT. Complemented by chrome detailing and the embossed tank logo, the Vulcan 900 Classic LT presents a stately appearance, reflective of its trademark performance and dependability.

## 4 SADDLE-UP

Climb into the seat of the Vulcan 900 Classic LT and prepare for open-road adventure. A bucket seat ensures extra comfort for those extended rides, while low seat height provides a natural riding position and also allows for an easy reach to the ground. Passengers are also treated to plush comfort with a standard integrated seat and backrest. Chromed-brass studs along the perimeter accentuate the bold look.

PEARL METEOR GRAY  
METALLIC SPARK BLACK

VULCAN® 1700 MOTORCYCLES

# DRESSED TO THRILL

The Vulcan® 1700 family of motorcycles represent Kawasaki design at its finest. A thunderous 1,700cc fuel-injected V-twin engine with cruise control puts the power to the pavement, and a host of premium touring amenities like intercom-headset compatible audio system and integrated luggage ensures an exhilarating ride. No matter how long the road is, the Vulcan 1700 family will get you there in comfort and style.

VULCAN® 1700 VAQUERO® ABS

CANDY CARDINAL RED

VULCAN® 1700 VAQUERO® ABS

# BIG ON BEAUTY

It may look like a custom V-twin bagger, but the Vulcan® 1700 Vaquero® ABS motorcycle is in a class by itself. With a powerful 1,700cc fuel-injected V-twin engine, the Vulcan 1700 Vaquero ABS is equipped with an Electronic Throttle Valve (ETV), six-speed transmission and rider-reassuring Kawasaki Advanced Coactive-braking Technology (K-ACT) ABS for a smooth, reassuring ride. The blacked-out engine, distinct bodywork styling and select chrome accents create a unique and bold appearance. Enhance the fun-factor of Kawasaki performance with the head-turning style of the Vulcan 1700 Vaquero ABS.

## 1 RIDER COCKPIT

Hotrod style elements carry over into the cockpit of the Vulcan 1700 Vaquero ABS, where muscle car-inspired instrumentation highlights the color-matched dash. The classic appearance belies the host of modern onboard amenities such as the AM/FM/WB audio system with iPod® and SiriusXM® compatibility. Small locking storage compartments below the premium speakers allow you to stow electronics, sunglasses and other necessities in a convenient spot.

All trademarks, registered trademarks, logos, and copyrights are the property of their respective owners.

VULCAN® 1700 VOYAGER® ABS

# ONE FOR THE ROAD

The Vulcan® 1700 Voyager® ABS motorcycle is the king of Kawasaki cruisers and a pinnacle of power and luxury on the open road. A 1,700cc digitally fuel-injected V-twin engine with six-speed transmission commands the road, while a host of premium touring amenities gives you and your passenger the comfort to go the distance. Kawasaki Advanced Coactive-braking Technology (K-ACT) ABS and electronic cruise control are part of the standard package. Dual locking saddlebags and a tail trunk big enough to stow two full-face helmets offers ample onboard storage while dual air-assisted shocks uphold the load so you can enjoy the journey, no matter where your destination may be.

## 1 CRUISE CONTROL

Relax and soak up the open road with the innovative electronic cruise control system of the Vulcan 1700 Voyager. Cruise control can be engaged and adjusted entirely from the right side of the handlebar—set your cruising speed between 30 and 85 mph (in third gear or above) with the push of a button and easily accelerate or decelerate with a toggling switch while remaining in cruise control mode.

## 2 FULLY LOADED DASH & AUDIO

The frame-mounted fairing of the Vulcan 1700 Voyager ABS motorcycle not only provides ample rider protection, but also houses numerous accommodations for you and your passenger. Large, easy-to-read instrumentation including a central LCD screen keeps you informed and in control. Powerful speakers accompany the standard AM/FM/WB audio system with accessory iPod® and SiriusXM® compatibility. It also features Navigation Audio Prompt Capability in conjunction with select Garmin® GPS devices (sold separately).

# KAWASAKI STRONG

MUCH MORE THAN MOTORCYCLES

## BULLET TRAINS

You already know KHI builds machines that move people. But, did you know it also builds machines that move thousands of people—all at once? We're talking trains here. From New York City subway cars to Japan's hyper-speed bullet trains, Kawasaki has been in the business since 1906. Whether a 186-mph bullet train or a 1,441cc Ninja® ZX™-14R motorcycle, KHI likes to believe that the technology that goes into moving thousands of people has a positive effect on how it goes about moving just one.

## MOTORCYCLES

Since KHI built its first motorcycle engine in 1953, it has never stopped pushing technology to arm riders with what they need to dominate the streets. Advanced engineering, exhaustive testing and tireless passion go into every motorcycle every time rubber hits the road. From industry-first features to the features that have evolved over a long history, KHI's innovations will never stop feeding the insatiable appetites of riders around the world.

## ROBOTICS

If robots are the future, then KHI has been shaping it since 1969 when the company built its first industrial robot. KHI continues to be a leader in the development of robots for a diverse number of processes including: assembly, handling, welding, painting and sealing. Kawasaki robot technology is being used every day to manufacture motorcycles and other products.

## **KAWASAKI HEAVY INDUSTRIES, LTD. (KHI)**

With 130 years of Kawasaki Heavy Industries, Ltd. (KHI) engineering building the heaviest, most durable and complex machines on the planet, Kawasaki STRONG is a name we can claim. KHI builds tunnel-boring machines that connect continents and trains that carry millions of New Yorkers in and out of the city 24 hours a day, seven days a week. From these engineering monsters to the last bolt on the Vulcan® S cruiser, KHI engineering says, over and over: Use me. Rely on me. I'm built to ride.

#### **WARRANTY**

The Kawasaki Vulcan® S, Vulcan S ABS, Vulcan S ABS SE, Vulcan S ABS Café, Vulcan 900 Custom, and Vulcan 900 Classic come with a 12-month limited factory warranty. The Vulcan 900 Classic LT comes with a 24-month limited factory warranty. The Vulcan 1700 Vaquero® ABS and Vulcan 1700 Voyager® ABS come with a 36-month limited factory warranty.

#### **UP TO FOUR YEARS ADDITIONAL COVERAGE**

Let Kawasaki protect your new vehicle for years to come with Kawasaki Protection Plus™. This plan repairs or replaces most components free of charge if found defective in material or workmanship. Everything about the plan is easy: There's no deductible. It's honored at every authorized Kawasaki dealer nationwide. It's transferable to another owner with no fee. Just ask your dealer how you can purchase additional coverage of 12, 24, 36, or 48 months (depending on the model and plan purchased). FL Lic #65500, Kawasaki Motors Corp., U.S.A., PO Box 25252, Santa Ana, CA 92799, (949) 770-0400.

#### **KAWASAKI CARES**

Always wear a helmet, eye protection, and proper apparel. Never ride under the influence of drugs or alcohol. Read Owner's Manual and all on-product warnings. Professional riders shown on a closed course.
