A Kawasaki Performance 4-Stroke Full Synthetic Oil

Kawasaki Performance 4-Stroke Full Synthetic Oil Exclusively formulated 100% synthetic • Improved starting and oil flow at low temperatures • Ultimate protection & performance in extreme conditions including high RPM, high temperatures and severe cold • Ultimate engine and bearing wear protection • Prolonged engine life from improved engine cleanliness, reduced oil volatility, ultimate thermal and oxidation stability • Ultimate shift quality through enhanced transmission / clutch performance and dependability • Recommended in gasoline applications requiring API SL, JASO MA and JASO MA2 engine oil • Dealer package quantity: quart = 12, drum = 1
 Quart, 10W-40 K61021-207A..... \$11.95
 55 Gallon Drum, 10W-40 K61021-407.. \$1,538.95

B Kawasaki Performance 4-Stroke Semi-Synthetic Oil

Semi-Synthetic blend for superior performance • Improved starting and oil flow at low temperatures • Superior engine and bearing wear protection • Prolonged engine life through improved engine cleanliness and reduced oil volatility • Recommended in gasoline applications requiring API SL, JASO MA and JASO MA2 engine oil • Dealer package quantity 12
 Quart, 10W-40 K61021-206A..... \$8.95

C Kawasaki Performance 4-Stroke Engine Oil

Kawasaki Performance 4-Stroke Engine Oil Outstanding engine and bearing wear protection • Prolonged engine life through improved engine cleanliness and reduced oil volatility Improved shift quality through enhanced transmission / clutch performance and dependability • Recommended in applications requiring API SL, JASO MA and JASO MA2 engine oil • Dealer package quantity: quart=12, gallon=4, drum=1

CHEMICALS / LUBRICANTS

A Kawasaki Performance Synthetic Chain Lube

Advanced race proven formula designed for both on and off-road applications • Ultimate protection for your drive system from rust, corrosion, and premature wear • Super tacky formula resists “fling off” • Safe for O-ring and non O-ring chain types • Dealer package quantity 12
Synthetic Chain Lube..... K61021-507..... \$10.95

B Kawasaki Performance On & Off-Road Prewash

Unique formula breaks down dirt, grime and oils while gently protecting paint and other delicate finishes • Safe on plastics, carbon fiber, paint, anodizing, aluminum, titanium and rubber • Biodegradable cleaning formula • Contains no harmful acids, CFC's or solvents • Will not harm seals or brake pads • Factory green color • Spray on, wash off, go ride! • Dealer package quantity 12
On & Off-Road Prewash..... K61021-501..... \$7.95

C Kawasaki Performance Wipe Down Cleaner

High gloss formula specifically developed for the Powersports industry • Wipe Down Cleaner coats plastic, fiberglass and painted surfaces • Restores showroom shine in a few quick wipes • Makes cleaning process fast, simple and effortless • Leaves a clear coat film for extended protection against the elements • Dealer package quantity 12
Wipe Down Cleaner..... K61021-503..... \$9.95

D Kawasaki Performance Grease

Multi-purpose extreme pressure, lithium complex grease which imparts superior high and low temperature characteristics and chemical stability • High tensile strength provides durability under heavy loads, resists mechanical breakdown and water “wash-out” • Offers excellent rust and oxidation protection and is highly compatible with seals • Dealer package quantity 12
Hi-Performance Grease..... K61021-504..... \$9.95

E Kawasaki Performance Air Filter Cleaner

Quickly and easily removes filter oil, dirt and other contaminants • Advanced formula removes super tacky air filter oils by breaking down the oil • Easily washes out with water • Works with both foam and fabric air filter elements • Will not degrade foam, paper or glued air filter seams • For best results use with Kawasaki Performance Air Filter Oil • Dealer package quantity 4
Air Filter Cleaner..... K61021-505..... \$19.95

F Kawasaki Performance Air Filter Oil

Race proven formula allows for increased air flow while providing ultimate protection from harmful airborne contaminants reaching critical engine components • Super tacky • Resists wash out from water and fogging • Factory green color • Will not degrade foam cells or filter seams • Dealer package quantity 12

A Yuasa® Battery

The basic job of a battery is to start an engine; it must crank (rotate the crankshaft) via the starter motor and supply sufficient voltage to activate the ignition system until the engine starts • This requirement involves a high discharge rate in amperes for a short period of time • Cranking amps are the number of amperes a lead-acid battery at 32 degrees F can deliver for 30 seconds and maintain at least 1.2 volts per cell (7.2 volts for a 12 volt battery) • Since it is more difficult for a battery to deliver power when it is cold and the engine requires more power to turn over, the Cold Cranking rating is defined as the number of amperes a lead battery at zero degrees F can deliver • CCA/cold cranking amps determine how much voltage you have to start your vehicle in cold conditions • Batteries require electrolyte and full charge prior to installation
