GENUINE ACCESSORIES

Kawasaki

ERGO-FIT™ COMFORT

1

Interchangeable Seats

Three different ERGO-FIT™ seats are available to help riders find the right reach to the ground, while keeping things comfortable.

2

Adjustable Footpegs

Factory-installed three-position adjustable footpegs move both towards and away from the rider's body, allowing for just the right amount of legroom.

3

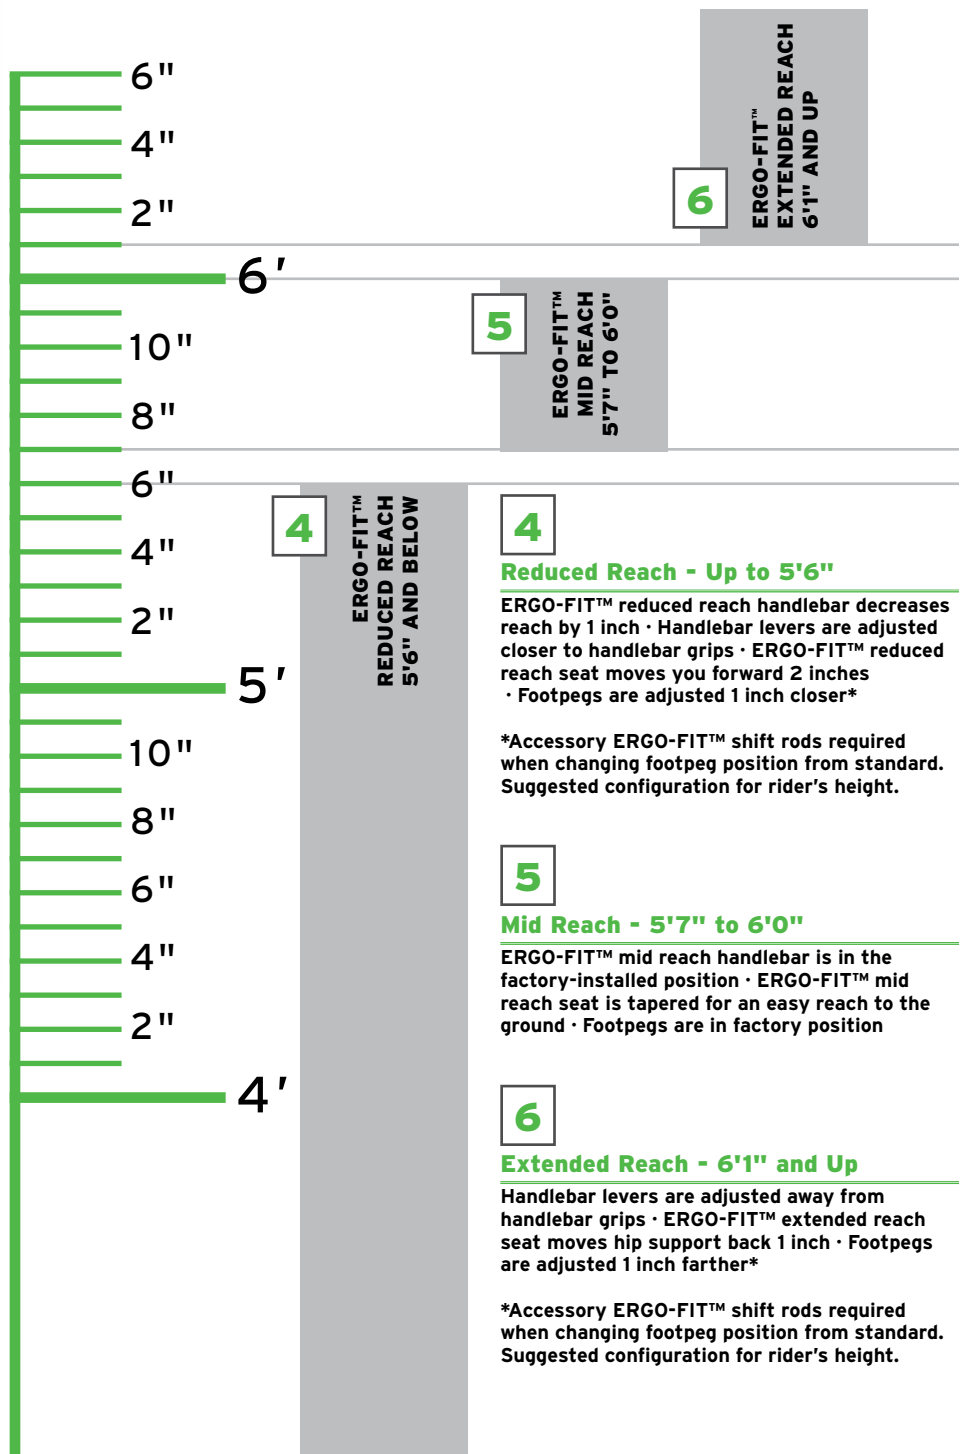

Versatile Handlebar

A combination of accessory handlebars and standard adjustable clutch and brake levers allows riders to find a comfortable reach.

ERGO-FIT™ COMFORT

Sizing Information

The Vulcan® S motorcycle features a combination of adjustable factory components and ERGO-FIT™ accessories. There are 18 different adjustable configurations to achieve a preferred fit for comfort and confidence. Use the chart below as a suggestion for finding the right fit based on your height.

4
ERGO-FIT™
REDUCED REACH
5'6" AND BELOW

4

Reduced Reach - Up to 5'6"

ERGO-FIT™ reduced reach handlebar decreases reach by 1 inch · Handlebar levers are adjusted closer to handlebar grips · ERGO-FIT™ reduced reach seat moves you forward 2 inches · Footpegs are adjusted 1 inch closer*

*Accessory ERGO-FIT™ shift rods required when changing footpeg position from standard. Suggested configuration for rider's height.

5

Mid Reach - 5'7" to 6'0"

ERGO-FIT™ mid reach handlebar is in the factory-installed position · ERGO-FIT™ mid reach seat is tapered for an easy reach to the ground · Footpegs are in factory position

6

Extended Reach - 6'1" and Up

Handlebar levers are adjusted away from handlebar grips · ERGO-FIT™ extended reach seat moves hip support back 1 inch · Footpegs are adjusted 1 inch farther*

*Accessory ERGO-FIT™ shift rods required when changing footpeg position from standard. Suggested configuration for rider's height.
