SAFE

A snowmobile is shown in a snowy forest, moving from left to right. The snowmobile is blue and black, with "POLARIS" written on it. A large red arrow graphic points from the left side of the image towards the snowmobile. The background consists of snow-covered trees.

BEYOND STOCK

TAKE YOUR RIDE TO THE NEXT LEVEL

Equip yourself right and push your limits. Seamless integration is the difference between taking the well-worn path and breaking new trail. Elevate your experience with Polaris Engineered™ riding gear and accessories, and go further, longer, harder.

POLARIS®

ENGINEERED PARTS
ACCESSORIES & APPAREL

ENGINEERED FROM THE POWDER UP

Everything we build is meticulously designed, rigorously tested and obsessively tuned to enhance your ride. From warmer riding gear to tougher parts, from innovative technology to maintenance essentials, our engineers spend countless hours both in the shop and on the trail to guarantee that your sled is just as ready to dominate the terrain as you are.

WE TEST. WE VALIDATE. YOU CONQUER.

At Polaris®, we're never satisfied with the status quo. That's why we developed our Apparel Center of Excellence—a state-of-the-art facility in Rigby, Idaho. Armed with the most advanced technologies on the market, we design, test and validate every piece of riding gear for optimal styling and performance. At our Apparel Center of Excellence, quality is more than a process—it's a promise.

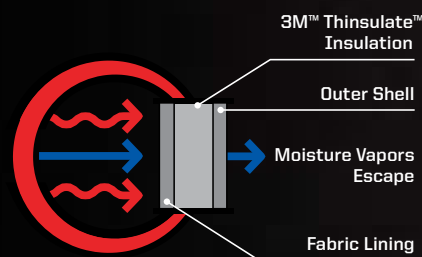

ENGINEERED TO STAY DRIER BREATHABLE – WATERPROOF – WINDPROOF

GORE-TEX® fabric deflects moisture and wind without sacrificing breathability. With an innovative membrane located between the outer layer and inner lining, any riding gear engineered with GORE-TEX® technology optimizes durability and versatility. Superior comfort. Superior ride.

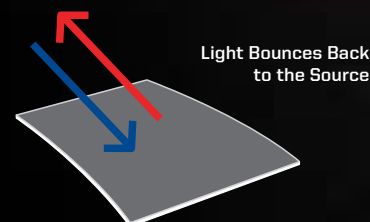

ENGINEERED TO GO LONGER HEAT STAYS IN – COLD STAYS OUT

3M™ Thinsulate™ Insulation employs state-of-the-art microfiber to immobilize cold air before it reaches your body. It also conserves your natural heat for premium thermal efficiency. Riding gear engineered with Thinsulate® technology keeps the cold out and the warm in so you can stay out all day.

ENGINEERED TO RIDE SAFER GREATER VISIBILITY – STRATEGIC PLACEMENT

3M™ Scotchlite™ Reflective Material bounces light back at the source instead of scattering it. Placed strategically on your body, it maximizes visibility in any situation. Riding gear engineered with Scotchlite™ technology lets you ride safer in even the darkest conditions.

**3M™ THINSULATE™
INSULATION**

Keep the cold out
and the warm in.

3M™ SCOTCHLITE™

Ride safer with vivid
reflective material.

GORE-TEX®

Defend your whole body
from water and wind.

SIZING CHARTS

HOW TO MEASURE

- 1. HEAD:** Measure circumference of head just above top of ears, and 1 inch (2.54 cm) above eyebrows.
- 2. SLEEVE:** With your arm fully extended, measure from the center back of neck at spine to the wrist bone.
- 3. CHEST:** Measure under arms around the fullest part of the chest. Be sure to keep tape level across back and comfortably loose.
- 4. WAIST:** Measure around natural waist with loose tape.
- 5. HIP/SEAT:** Place the measuring tape around the body at the fullest part of the lower hip, feet together.
- 6. INSEAM:** Without shoes; measure on inside of leg from groin to the floor.
- 7. GLOVE SIZE:** Measure circumference around your dominant palm at widest point.

**4 STEPS ON HOW TO FIT A HELMET****1. POSITION**

Make sure the helmet sits squarely on your head.

2. MOVEMENT

Move the helmet side to side. Your scalp should move with it.

3. INNER LINING

Make sure the inner lining fits snugly around your head without causing pain.

4. CHINSTRAP

Check with your finger, if proper tightness, finger shouldn't fit between chin and strap.

GOGGLES

DETERMINE YOUR LENS COLOR TO OPTIMIZE VISION IN ANY CONDITION

SMOKE + BLUE + GREEN

- Cut down brightness without distorting color
- Reduce eyestrain
- Designed for moderate to bright conditions

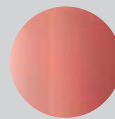

YELLOW + GOLD + AMBER

- Provide superior depth perception
- Enhance terrain definition in flat light
- Designed for moderate to low-light conditions

ROSE + VERMILLION

- Provide superior low-light visibility
- Enhance contrast in cloudy conditions
- Increase visibility in forested settings
- Designed for low-light conditions

MIRRORED COATING

- Reduces glare by reflecting light
- Maintains visibility of LCD readouts
- Paired with lighter tints to offset darkening

POLARIZED LENSES

Polarization substantially reduces blinding glare and consequent eyestrain by blocking horizontal light waves.

509 FOR POLARIS®

- Wicks moisture away from skin
- 41% wool, 40% acrylic, 15% Lycra®, 4% polyamide

» SB | 2865041

HOW TO LAYER

See pages 10-15 for Outer Layer options

B BASE LAYER

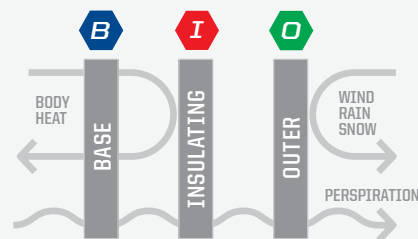

The base layer wicks sweat off of your skin to keep you comfortable and dry. Polyester works well; cotton doesn't.

I INSULATING LAYER

The insulating layer works with the base layer to transfer moisture away from your body. Polyester and fleece work best.

O OUTER LAYER

The outer layer blocks wind and allows moisture to escape. Use an outer layer with venting to control your temperature.

NEW KLONDIKE BASE LAYER

- 92% polyester, 8% spandex
- Soft brushed liner
- » Top | S-3XL | 2866007
- » Bottom | S-3XL | 2866006

U.P. BASE LAYER

- » 93% polyester and 7% spandex jersey knit
- » Reflective logos
- » Top | 2864030
- » Bottom | 2864031

ANNAPURNA MID LAYER

RIDER'S VOICE

What do you do to ensure a great ride?

"I wake up early to be the first one on the newly groomed trails."
—ALEX

"I put my good luck charm from my son in my handlebar bag."
—RHONDA

"I stock up on snacks and water in case one of my buddies gets cranky!"
—BRUCE

SEE TOTAL CONTROL

Polaris® Innovation is always on the hunt for new ways to enhance your ride. Install the **Polaris® Interactive Digital Display** to have diagnostics and GPS navigation at your fingertips. Connect your machine to the RiderX™ app using the **Polaris® Link** and monitor performance from your phone. Choose either technology and ride with supreme peace of mind.

PICK THE BEST TECHNOLOGY FOR YOUR RIDING NEEDS

HOW TO GET PURE TRACTION ON ICE AND HARD-PACKED SNOW

Adding traction products to your sled improves acceleration, braking and steering control, especially on hard-packed snow and ice. The more aggressive your riding style, the more traction your sled needs to perform the way you want it. The key is to have the right balance of traction products on your track and skis.

1. Determine how to match your riding style and sled model to the correct number of studs, type of studs and stud pattern.
2. Determine the right type and length of turning carbides necessary to balance traction and optimize steering.
3. Make sure you have the necessary parts installed to prevent the studs from damaging your sled's tunnel and cooling system.

TRAIL TRACKS

COBRA

- Cupped lugs for superior acceleration and braking in loose soft snow conditions
- Flexible lug design for superior off-trail performance
- Softer, thinner lugs generate less noise for improved rider comfort

HACKSAW

- 1" lug height for low rolling resistance that improves fuel economy
- Crescent lug features recessed tips and cutting edges for forward and lateral bite on hard-pack
- Hard-wearing rigid lugs for mile after mile of dependable use
- Narrow lug base to reduce rolling resistance and maximize top speed

ICE ATTAK

- Factory pre-studded with aggressive 31-point stud pattern
- HackSaw-based lug design for good top speed and handling on hard-pack snow
- 1.063" lug height for average trail use and good speed
- 1.0375" lug height for mixed on/off-trail use

ICE ATTAK XT

- Factory pre-studded for improved traction and control
- Lug design delivers better traction than the ICE Ripper XT
- 1.22" lug height provides better handling and stability
- Optimized rubber compound for superior traction on groomed trails

RIPSAW

- Rigid lugs provide superior handling, acceleration, and braking on groomed trails
- Narrow lug base to reduce rolling resistance and maximum top speed
- Angled profiles for aggressive forward and lateral bite

RIPSAW II / **NEW RIPSAW II 1.5**

- Tapered outside lug edges for less side bite when cornering
- Sharp angled lugs for excellent bite on hard-pack snow
- Cupped center and full outer lugs for traction on loose, less compacted snow
- Lug design generates less noise for improved rider comfort on hard-packed groomed trails
- Available in 1.25" and 1.5"

CROSSOVER TRACKS

BackCountry

BACKCOUNTRY / BACKCOUNTRY X

- Arched lug design with staggered snocross-inspired pattern for excellent soft snow traction
- 2.52" drive pitch for BackCountry, 2.86" and 3" drive pitch for BackCountry X
- New for 2015, BackCountry X 2.86" drive pitch models will feature tapered lug on outside edges for improved durability
- Now available in 3" drive pitch for BackCountry X

BackCountry X

BACKCOUNTRY X2

- Arched lug design with staggered snocross-inspired pattern for excellent soft snow traction
- Rigid lug support columns and optimized rubber compound to deliver great on/off-trail performance
- 2.86" drive pitch

*2 ply tracks

"High-performance snowmobiles require high-performance parts. Our new Series 6 and Series 7 tracks are engineered to deliver the best possible performance so you can dominate the deep snow."

– MARTY S., SNOW ENGINEERING MANAGER

CROSSOVER TRACKS *CONT'D*

COBRA 1.6

- Cupped lugs for superior acceleration and braking in loose soft snow conditions
- Flexible lug design for superior off-trail performance
- Designed for ICE Technology, select lugs are more rigid for traction on hard-packed snow performance

ICE COBRA 1.6

- Factory pre-studded ICE Technology with the optimal lug height for on/off-trail riding
- Cupped lugs for superior acceleration and braking in loose, soft snow conditions
- Flexible lug design for superior off-trail performance

DEEP SNOW TRACKS

NEW SERIES 7

- Polaris exclusive
- Ideal track to provide lift in the deepest, softest snow conditions
- Features a new lightweight single-ply design optimized for weight and powder snow performance

NEW SERIES 6

- Outstanding traction and control in deep snow
- Lugs provide tremendous flotation and great performance
- 2.6" lugs provide outstanding traction in all deep snow conditions
- Design provides outstanding flotation and control

SERIES 5.1

- Industry-leading deep powder track; for 8T Drive sprockets, 2.86" pitch
- Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- Soft and flexible tips for superior performance in deep snow

NEW PEAK 2.25

- Delivering unrivaled acceleration on hardpack snow with designed lift and flotation for deep powder
- A great all around track for those who need the acceleration and traction of a stiffer lug with the flotation and lift

SERIES 4

- The standard in 2" deep snow tracks; for 8T Drive sprockets, 2.52" pitch
- Equal parts versatility and durability
- Stiff lug base for long wear and hard-pack performance
- Soft and flexible tips for superior performance in deep snow

CHALLENGER X3

- Single-ply construction, 3" drive pitch and advanced molding technology make it the lightest in its category
- Lug geometry and support columns allow lug cup and flex action for unmatched flotation
- 174" and 156" models now available

PEAK 5

- Angular lugs bite big and funnel snow under snowmobile for outstanding flotation
- Available with soft lugs for powder snow and hard lugs for heavy/wet snow
- Outer lug bars deliver better lateral control for improved handling

OTHER TRACKS

Cobra WT

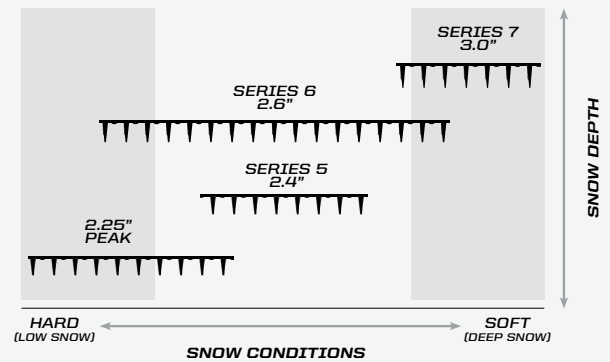

From utility tracks to competition tracks to tracks for youth sleds, Polaris® has you covered for any riding style.

Find the right tracks for your machine in our online parts catalog at Polaris.com.

FULL CANVAS COVER
2881435 for AXYS® PRO-RMK®, SKS, RMK® Assault®

PREMIUM POLYESTER COVERS

These durable covers protect the sled from the elements to keep it looking good and performing at its best. These covers are ideal for overnight protection, when the sled is stored between rides and during trailering.

MATERIAL: Durable black polyester construction

CANVAS COVERS

These durable Canvas Covers provide outstanding protection for your favorite sled when it's being towed, parked overnight or stored in the off-season.

MATERIAL: Rugged, durable 10 oz. canvas, treated to repel water and prevent UV degradation

POLARIS® SNOWMOBILE DRIVE BELTS

POLARIS ENGINEERED™ BELTS DELIVER SUPERIOR PERFORMANCE FOR YOUR RIDE, WHETHER IT'S BRAND-NEW OR EXPERIENCED ON THE TRAILS. OUR ENGINEERS ARE EXPERTS ON MAKING POLARIS® MACHINES OUTPERFORM THE REST.

POLARIS ENGINEERED™

"We produce the most effective and efficient drive system for Polaris® snowmobiles by holding our belts to extremely high standards that no aftermarket company can match."

— JOEL S.,
SNOW DRIVE BELT ENGINEER

STANDARD = GOOD

- Good trail belt for lower horsepower engines
- Best suited for low-speed operation
- Single Cog

KEVLAR® = BETTER

- CNC cut edges belt
- Short break-in period
- Dual Cog

PBO = BEST

- Extreme-duty belt; longest service life
- CNC cut edges on each belt
- Longer break-in period
- Dual Cog

FIND THE RIGHT BELT FOR YOUR MACHINE IN OUR ONLINE PARTS CATALOG AT POLARIS.COM

*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

SYNTHETIC CHAINCASE LUBE

- Prevents rust, oxidation and corrosion of internal chaincase components
- Synthetic formula engineered and tested by Polaris® for snowmobile chains and sprockets
- Provides maximum protection for extreme operating temperatures
- Low sulfur additive resists thermal breakdown
- » 1 Quart | 12 per case | 2873105
- » 1 Gallon | 4 per case | 2873106
- » 2.5 Gallon | 2 per case | 2872952

EXTENDED LIFE ANTI-FREEZE 50/50 FORMULATION

- Extended 5-year service interval
- New organic acid technology
- Hard water compatible
- No scaling = better heat transfer
- New yellow coloration
- » 1 Quart | 12 per case | 2880514
- » 1 Gallon | 6 per case | 2880513
- » 55-Gallon Drum | 2880512

"We've watched other rental operations run sub-standard oil and lose motors. Things have changed over the years in our business, but one decision that will never change is running Polaris Engineered™ Lubricants."

– BRANDY L., POLARIS® WEST DEALERSHIP

FOGGING OIL

- Outstanding moisture displacement and water resistance
 - For all 2- and 4- cycle applications
 - Excellent rust preventative
- » 12 oz. | 12 per case | 2870791

SHOCK ADJUSTING LUBE

- Allows for easy spring adjustment
 - Silicone dry film lubricant
 - Penetrates shock body threads and lubricates spanner nut and threads maintaining adjustability in extreme cold
- » 1 per case | 2878018

HYDRAULIC BRAKE FLUID

- Designed for use in Polaris® hydraulic brakes
 - Superior high temperature characteristics
 - Anti-corrosive additives extend the life of brake system and ensure consistent, positive braking
- » 12 oz. | 12 per case | 2872189

ALL SEASON GREASE

- Engineered for the pressure and temperature demands of snowmobiles, ATV and watercraft
- » 3 oz. | 4 packs | 6 per case | 2871322
» 14 oz. | 10 per case | 2871423

GREASE GUN KIT

- Tough steel construction and pistol grip design
 - Front and top-pipe outlet mounts accept both 6" rigid pipe nozzle and 12" 12,000 psi flex hose
 - Comes with standard zerk fitting
- » 4 per case | 2871312

GAS SHOCK OILS

- Premium formulas to match every shock
 - Eliminate fade and freeze-up
- » Walker Evans™
5wt - 1 Quart | 6 per case | 2874522
» Premium FOX®
1 Quart | 6 per case | 2870995
» Premium FOX®
2.5 Gallon | 2 per case | 2872279

NEW INSTANT SHINE AND DETAILER

- Cleans, polishes and protects plastic and painted surfaces
 - Spray and wipe formula
- » 16 oz. | 6 per case | 2830204 | Each

NEW POLARIS® POLISH

- Protection and shine have never looked so good or been so easy - spray on, wipe off and go
 - Ideal on painted and plastic surfaces
 - Contains carnauba wax
- » 16 oz. | 6 per case | 2830207 | Each

NEW MUD SHIELD PRE TREAT

- Pre-treat and protect, engineered for the most extreme conditions
 - Makes cleaning your vehicle easier and faster
 - Inhibits the adhesion of dirt, mud and snow
- » 8 oz. | 6 per case | 2830208 | Each

NEW NEVER RUST SPRAY

- Brutal conditions demand superior protection, be prepared for any climate before and after you ride
 - Synthetic formula protects against rust and corrosion while lubricating metal surfaces
 - High resistance to water wash out
- » 16 oz. | 6 per case | 2830209 | Each

NEW ALL PURPOSE CLEANER

- Biodegradable formula removes dirt and grime effortlessly
 - Use on netting, seats, wheels, tires, plastic, and metal surfaces
- » 16 oz. | 6 per case | 2830205 | Each

NEW XP SPRAY WASH

- Effortless cleaning power - simply spray on, spray off and go
 - A biodegradable, high-performance wash ideal for removing dirt, oils and carbon build up
- » 32 oz. | 6 per case | 2830202 | Each

NEW XP WASH

- Removes the most intense and stubborn dirt and trail build up easily
 - A foaming, highly concentrated wash
 - Superior water beading
- » 32 oz. | 6 per case | 2830203 | Each
