# RIDING GEAR BORN OF A HIGHER STANDARD.

**INTRODUCING OUR MOST ADVANCED RIDING GEAR EVER!**

It represents years of experience as riders and technical developers that was infused into making an all new lineup of high-performance technical outerwear. Advanced material science is applied to deliver riding gear that will improve your ride. Through our rigorous design and testing process, TECH54™ was born—a new, high-performance membrane featured inside every jacket and bib that offers more waterproof breathability than any other construction and material combination we've developed to date.

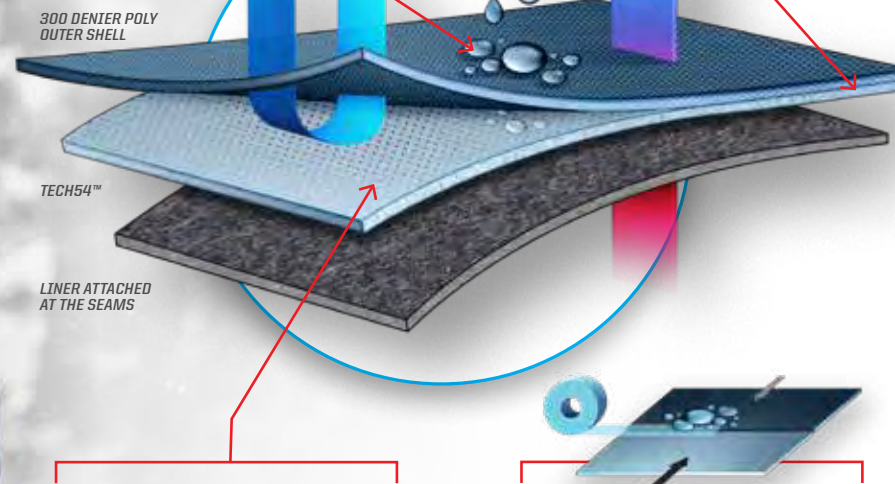

**SUPERIOR  
DWR  
COATING**

Superior Durable Water Repellency (DWR) prevents precipitation from saturating the exterior of all outerwear pieces.

**TECH54™  
WATERPROOF  
BREATHABLE**

A waterproof and breathable membrane is bonded to the shell fabric to block moisture from entering while allowing vapor moisture to escape from the inside—keeping you dry in both directions.

**5k/5k  
10k/10k  
RATING**

Different levels of waterproof breathability tailored for different riding styles.

**CRITICALLY  
TAPED  
SEAMS**

Internally taped seams fully block precipitation while retaining breathability.

## INTRODUCING **TECH54™**

### BORN FROM EXPERIENCE.

Since 1954, Polaris® has been at the forefront of developing newer, better snowmobile technology. As sleds become lighter and faster, and we as consumers become more technical, our apparel must evolve to exceed the demands of today's riders and perform better than ever before. That's why we designed TECH54™. Born in our technical Center of Excellence, engineers and riders worked in close collaboration to prototype, test and develop a material that would be comfortable, waterproof and breathable to meet the unique demands of every rider. The result is apparel that delivers everything riders need and nothing that they don't.

### HOW IT WORKS TO ELEVATE YOUR RIDE.

**5k/5k OR 10k/10k**

#### WATERPROOF

The first number (5k or 10k) refers to the waterproof rating.

#### BREATHABILITY

The second number (5k or 10k) refers to how much water vapor the material can expel through the jacket to release heat—and keep you dry from the inside.

#### DIFFERENT RATINGS FOR DIFFERENT RIDES

Products with a TECH54™ 10k/10k rating are designed for our most active riders, while riding gear with a TECH54™ 5k/5k rating is ideal for less active riding. Make your choice based on how hard you exert yourself while riding, or the type of riding you most consistently do.

**TECH54™ IS FEATURED IN  
EVERY POLARIS® JACKET & BIB.**

**DIVE DEEPER INTO TECH54™ AT  
YOUTUBE.COM/USER/POLARISINDUS**

## DESIGNED

Modern riders demand stylish gear that's fit for the ride and performs in ever-changing elements. Our product designers skillfully use the best components and materials to develop riding gear that performs to your highest standards.

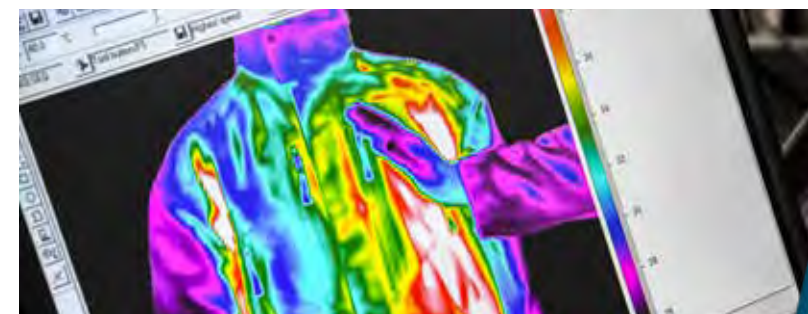

## PROVEN

Polaris Engineered Apparel™ is proven in our advanced development lab and thoroughly tested by the hardest-riding people on the trails and in the backcountry—our team of expert riders, engineers and pro riders.

## TRUSTED

Nobody knows the ride like us. The result of our collaborative design process is a Polaris Engineered™ advantage that lives inside every piece of riding technical gear and accessory we make. Because trust is earned on the snow, where we are at our best.

# OUR MOST EVOLVED RIDING APPAREL EVER.

As riders and snowmobile experts, we know the difference quality apparel makes while riding. Our apparel features the best combination of class-leading technologies that have been continuously tested and refined. Keeping you dry, warm and comfortable in every riding condition is our quality promise to every rider wearing the Polaris® name.

## 509 FOR POLARIS

### SUPERIOR PROTECTION

A trusted name in helmet and goggle manufacturing, 509® helmets utilize advanced materials like carbon fiber for lightweight protection.

## DWR RESIST MOISTURE

Every Polaris® jacket and bib is treated with a superior-rated DWR (Durable Water Repellent) coating to prevent precipitation from saturating the outer fabric, so your gear doesn't get soggy. The DWR coating causes water to bead up and run off, keeping you comfortable and dry.

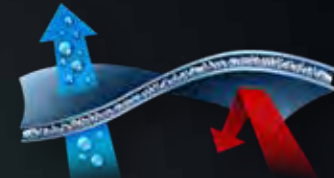

## TECH54

### WATERPROOF/BREATHABLE

TECH54™ is our single-layer bonded laminate technology that brings waterproof breathability and riding comfort to a new level in every Polaris® jacket and bib.

## YKK® LAST LONGER ZIPPERS

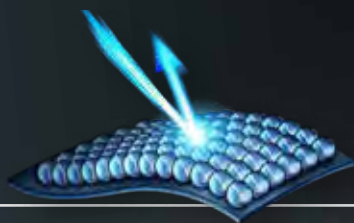

The most trusted name in the industry. Quality construction that doesn't fail.

## 3M Thinsulate INSULATION

### BE WARMER

3M® Thinsulate® Insulation is zonally mapped on insulated apparel to provide extra insulation in high wind exposure areas.

## 3M Scotchlite™ Reflective Material

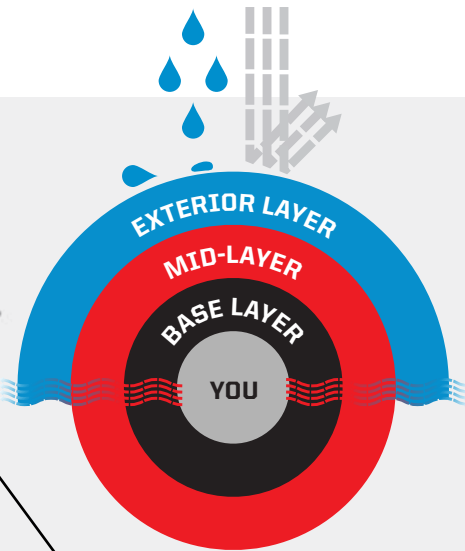

### RIDE SAFER

Proven in every weather condition, patented 3M® Scotchlite™ Reflective Material is placed meticulously on each garment and nighttime tested to ensure rider safety and visibility from every angle.

POLARIS ENGINEERED APPAREL™  
**3 YEAR**  
FACTORY WARRANTY

# LAYERING 101

Polaris® brand outerwear is designed to work together as a smart solution that integrates multiple layers for ultimate performance. We offer a range of innovative products that are designed to deliver comfort, warmth and mobility for every riding style.

**BASE LAYER**

Rests against your skin to regulate your overall temperature by wicking away moisture. Must be light, quick-drying and quick-wicking.

**MID-LAYER**

Works to pull moisture away while keeping body heat near your skin. Usually a mid-weight layer followed by an outerwear jacket.

**EXTERIOR LAYER**

Retains inner warmth, prevents external cold from entering and regulates body temperature by venting moisture and blocking out wind, snow and water.

# FIND YOUR PERFECT HELMET

No matter your riding style or personal preference, Polaris® has the perfect helmet choice for you.

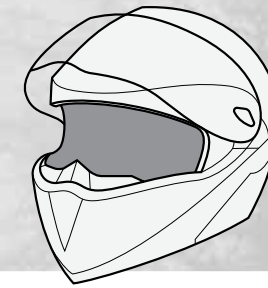

## MOTO

- For maximum ventilation and versatility
- Goggle and lens selection
- Convertible for summer use
- 509® Partnership

## MODULAR

- All-weather protection
- Versatile flip-open face shield
- Wide field of view
- Electric shield optional

## FULL

- Maximum protection from elements
- Full anti-fogging protection
- Wide field of view
- Electric shield optional

### SAFETY RATINGS EXPLAINED

**DOT:** Certification from the United States Department of Transportation

**ECE:** Standards set by the Economic Commission for Europe; similar to the DOT standards

## ULTIMATE PROTECTION FOR RIDERS

Polaris® uses industry-leading technologies and partners to provide options covering all conditions.

**TEKVEST® SUPERSOFT**  
S-3XL  
2862190 | \$429<sup>99</sup>

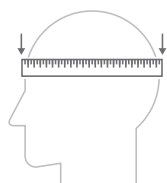

**TEKVEST® FREESTYLE**  
S-3XL  
2862189 | \$349<sup>99</sup>

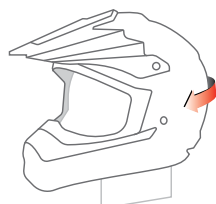

**TEKVEST® SHOULDER PADS**  
S-3XL  
2862192 | \$99<sup>99</sup>

## GET THE PERFECT FIT

### MEASURE

Measure the circumference here for the proper fit. Make sure the inner lining fits snugly around your head without causing pain.

### MOVEMENT

Move the helmet side to side. Your scalp should move with it.

### CHINSTRAP

Check with your finger. If properly fit, your finger shouldn't fit between your chin and the strap.

## KINGPIN 509<sup>®</sup> SNOW GOGGLE

PREMIUM MATERIALS IN AN AFFORDABLE PACKAGE

- Oversized spherical lens delivers optimal peripheral vision
- Maximum anti-fog and scratch-resistance
- Contoured frame and triple-layer foam seals out cold and snow
- Removable nose piece delivers versatile cold weather protection
- Quick-change lens technology for fast lens tint swaps

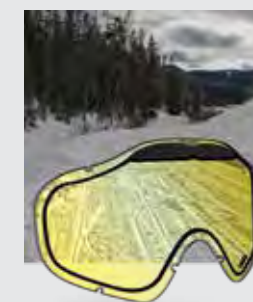

## HOW TO CHOOSE THE PERFECT LENS FOR EVERY LIGHT CONDITION

CARRY MULTIPLE LENSES SO YOU CAN EASILY ADJUST FOR LIGHTING FROM DAWN TO DUSK

CLEAR

- Delivers superior low-light visibility
- Increases contrast in cloudy conditions

YELLOW

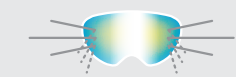

- Enhances flat-light terrain definition
- Delivers superior depth perception

SMOKE

- Cuts down brightness without distorting color
- Reduces eyestrain

LENS COATINGS:

MIRRORED

- Reduces glare by reflecting light
- Maintains visibility of LCD readouts
- Paired with lighter tints to offset darkening

POLARIZED

- Substantially reduces glare and blinding
- Blocks horizontal light waves
- Decreases eyestrain

# PUT SAFETY ON YOUR SIDE WITH EVERY RIDE.

When it comes to mountain riding, we live for epic terrain and adrenaline. We live for powder days filled with blue skies and accept that there is inherent risk in this incredible playground. That's why Polaris® has partnered with PIEPS®, the recognized global leader in premium alpine avalanche safety equipment to create an exclusive lineup only available through Polaris. With their state-of-the-art equipment that allows you to practice, you'll have the confidence of knowing exactly how to face any emergency and ensure you're prepared for anything.

## PIEPS® JETFORCE SC

### BEST-SELLING PERFORMANCE WITH SUPERCAPACITOR SYSTEM

★ TOP SELLER

The PIEPS® JetForce SC features the newest supercapacitor airbag technology—the Alpride EI system. This cartridge-free system is compact, simple to use, allows you to practice, and charges in less than an hour while you're in the field.

- Fully electronic, turbine-based fan system powered by supercapacitor
- Deployment handle enabling you to keep your hand on the throttle while deploying bag
- Avalanche safety pocket for shovel handle, probe and shovel blade
- Side load bag allows for easy access to contents
- Hip belt with stash pocket and leg loop as added safety measure to ensure pack stays in place

VOLUME	20 L
WEIGHT	2.60 KG / 5.7 LBS
AIRBAG VOLUME	150 L
BLACK	2883674
	\$1200 <sup>00</sup>

## PIEPS® JETFORCE BT

### ADVANCED LIGHTWEIGHT PERFORMANCE LOADED WITH TECHNOLOGY.

NEW

The JetForce BT pack is the pinnacle in avalanche airbag technology. Now 1.5 lbs. lighter than its predecessor, it provides an avalanche safety solution to riders who place a premium on compact gear.

- Now featuring Bluetooth® capabilities for as needed updates
- Powered by Li-Ion battery, tested to -30 below to allow for regular practicing
- Fully electronic, turbine-based fan system
- Deployment handle able to be set on right or left shoulder
- Avalanche safety pocket for shovel handle, probe and shovel blade
- Zip on/off outer allows for easy access and capacity customization
- Hip belt with stash pocket and leg loop as added safety measure to ensure pack stays in place

## FIND YOUR PERFECT SIGHTLINE

Blend protection and style with the windshield built just for the type of riding you do most.

**TALL**  
The choice when you want maximum wind protection. Perfect for riders who ride in colder conditions often.

**MID**  
The best of both worlds: a clean look for your sled that also offers wind protection for colder days.

**LOW**  
For a sleek, clean look on your sled. Does not affect vision in any way. Great for riders who stand up most of the time.

# POLARIS® RIDE COMMAND® STAY CONNECTED

To download the RIDE COMMAND APP for free, text SNO1 to 82350

## SEAMLESSLY ENHANCE YOUR SNOWMOBILING EXPERIENCE

Pair your P.I.D.D. with the revolutionary Ride Command® app and enhance your snowmobiling experience by connecting with your friends and your sled. Ride Command®, when paired with a P.I.D.D., allows you to plan rides and coordinate with friends before, during, and after your ride. Also, get quick-glance access to critical snowmobile diagnostic info and GPS navigation. It enhances the features of your P.I.D.D. and allows you to get even more from your ride.

# P.I.D.D.

## POLARIS® INTERACTIVE DIGITAL DISPLAY (P.I.D.D.)

- Bright, easy-to-read 4.3" full-color LCD screen
- GPS Course Up or North Up option
- GPS Go-to function with distance on map screen
- Exporting capabilities for trip data from the display to USB drive
- TPS, RPM, and ground speed playback for snowmobile tuning, including clutch calibration
- Real-time gauge with speed, RPM, and average MPG
- Phone connectivity shows incoming calls, texts, battery life, and signal
- Toggle through display modes with handlebar control

**2881554 | \$799<sup>99</sup>** TOP SELLER  
MY15-20 AXYS®, MY10-20 PRO-RIDE® (EXCLUDING 550 MODELS). MUST ORDER INSTALL KIT WITH DISPLAY. REQUIRED PARTS TO INSTALL FOR POLARIS® INTERACTIVE DIGITAL DISPLAY

### P.I.D.D. INSTALL KIT

## FURTHER ENHANCEMENTS WHEN PAIRED WITH RIDE COMMAND® APP INCLUDING GROUP RIDE FUNCTION AND LOCAL WEATHER INFORMATION

## DON'T HAVE AN ELECTRIC START?

FOR A BETTER EXPERIENCE WITHOUT ELECTRIC START, INSTALL THE P.I.D.D. POWER UP KIT

- ADVANTAGES INCLUDE:**
- Maintain GPS lock when you start your sled back up (Without battery kit, satellite will need to relocate, which can take up to 30 seconds while moving)
  - Display will not shut down and reboot every time your sled is shut off
  - Display has ability to run while sled is turned off, which allows you to use the screen while stopped

UNDERCOVER

- Made to go under Polaris® snow covers to provide an additional level of protection
- Soft fabric helps to minimize cosmetic damage caused by chafing
- Easy to install and remove
- Works well as a dust cover when machine is stored inside
- The undercover is separate from the cover, which allows it to be kept clean by machine washing. We recommend using a washing machine bag to contain the elastic and hooks
- Air dry

CONVERTIBLE COVERS

- Expandable zippered areas allow for multiple accessory configurations with a single cover
- Our most rugged snowmobile cover for the most demanding applications
- High-quality canvas fabric and form-fitting design is ideal for towing or storage

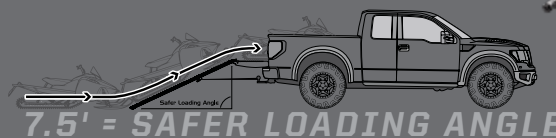

CALIBER™ RAMP PRO

The industry's most innovative ramp design for snowmobiles, ATVs, UTVs, and golf carts.

- TOP SELLER

# TRACTION & CONTROL

## RIP WITH AN IRON GRIP.

Riders who demand control require maximum traction. That means adding studs and carbides that provide extra points of contact with the snow and ice. More contact translates to better grip, which creates more overall control of your sled and a supercharged holeshot. For anybody who wants more power or rides over ice like a frozen lake, studs and carbides deliver superior handling, braking, and control.

### THE COMPONENTS OF BETTER TRACTION

#### STUDS

Studs come in varying lengths and sizes depending on the type of sled you ride, the type of track it's equipped with, and are sized based on the depth of the lug on your track. The recommended length is  $\frac{3}{4}$ " -  $\frac{3}{8}$ " more than the lug to ensure proper traction, but not longer because they can be damaged by rock and debris under the snow.

#### TUNNEL PROTECTION

Tunnel protection, or "wear strips", are hard surfaces affixed to the inside of your sled's tunnel to protect the tunnel and heat exchangers from stud damage. Where noted, they are required for anyone who decides to stud their track.

#### CARBIDES

Carbides attach to the skis on your sled to improve steering control across a wide variety of trail conditions with the least amount of effort required by the rider. When studding your track, you should increase the length of your carbide to ensure proper turning.

## TUNNEL PROTECTION

## CARBIDE WEAR STRIPS

Carbides need to be sharpened or replaced periodically due to normal wear and use. Rocks, cement, pavement, and road crossings all contribute to carbide wear.

3" - 4" CARBIDE

- Perfect for sleds with a 121" track with 96 studs or less or sleds with 1" lugs taking corners at moderate speeds.

6" CARBIDE

- Ideal for sleds in the 136" track range with up to 1 1/4" lugs or shorter track sleds with more than 96 studs.

8" CARBIDE

- Best for ultimate performance sleds with a 144" track or longer with paddles and/or the maximum amount of studs.

### CHOOSE YOUR LENGTH

## STUD KITS INCLUDES EVERYTHING TO UPDATE YOUR SLED'S TRACTION - STUDS, NUTS, BACKER PLATES, TEMPLATE, AND TRACK DRILL BIT.

# FOR THE LIFE OF YOUR RIDE

Maintenance is the key to keeping your Polaris® snowmobile performing at its peak. Items like belts, lubricants, and batteries represent only a few of these critical items engineered specifically by Polaris.

## DRIVE BELTS

Polaris Engineered® belts deliver unmatched performance for your snowmobile. Developed and tested on all our engines for all environments and conditions. Check your belt for delamination, hour glassing and glazing.

### BREAK-IN PERIOD

The break-in period for a new belt is 50 miles. During this time, vary at moderate speeds while avoiding wide open throttle.

## SPARK PLUGS

Spark plugs perform optimally with a sharp edge on the electrode for electrons to discharge from. When the edge starts to round, you should change the spark plug, about once per year.

## BATTERIES

Never leave a battery unattended during the storage season. To ensure your battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a BatteryMINDER®. Be sure to check for corrosion from the terminals to the ends of the cables.

## CARBIDES

Worn skis, skags or carbides will adversely affect handling. Inspect your carbides for bends in the host bar (which can cause wandering), sharp edges, chips or cracks (which cause darting), and blunt/square edges that may cause catch hazards. Replace your carbides when you detect any of these conditions.

## TRACKS

Tracks are your key connection to the snow. Through use, they can accrue damage and wear out. Tracks should be checked regularly for weathering and dry-rotting and replaced immediately if damage is found.

## STUDS

Studs can bend, break, or pull through a track with extended, hard riding. Inspect your tracks regularly and replace studs as they wear down. If the track is torn around the stud hole, the track may need replacing.

## RAIL SLIDERS

Rail sliders wear out over time in normal riding conditions. Check the wear line on your rail to see if it needs replacing. They should typically be replaced once a year.

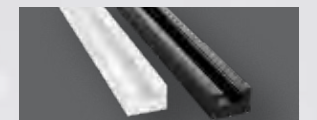

## MAINTENANCE

**BATTERIES**

5521633-070                5522144-070

**TIPS:** Operating the vehicle immediately after cold starting could cause engine damage. Allow the engine to warm up for several minutes before operating the vehicle. If cold drive away is attempted, the engine RPM may stumble slightly to protect the engine.

SEE OUR LATEST MAINTENANCE TIPS AT [POLARIS.COM/MAINTENANCE-VIDEOS](http://POLARIS.COM/MAINTENANCE-VIDEOS)

FIND THE RIGHT BELT FOR YOUR MACHINE IN OUR ONLINE PARTS CATALOG AT [POLARIS.COM](http://POLARIS.COM)

\*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset, and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

## POLARIS ENGINEERED™ DRIVE BELTS

### OUR INVESTMENT

- 20,000 miles of field testing
- Thousands of dyno hours
- 18+ months of development (3,000+ design hours) per belt
- 1200+ vehicle validation hours
- Collaboration with powertrain & clutch engineers

### YOUR ADVANTAGE

- No clutch recalibration
- Less wear & tear due to heat
- Ensure maximum performance of your vehicle
- More time out riding, less time wrenching

## FOR THE LIFE OF YOUR RIDE, ONLY THE BEST WILL DO.

In the continued pursuit of creating the best oil on snow, we invest in rigorous testing to ensure our oil delivers unrivaled consistency and performance. The result are Polaris Engineered Lubricants™ that are tested and perfected to deliver excellent total engine protection for the life of your ride.

## OIL FOR EVERY SLED, PROVEN IN THE TOUGHEST RACE.

When you're flying across 2,000 miles of Alaskan tundra, racing riders and the bitter winter wind to seize your immortal moment, you need equipment you can count on. Iron Dog® snowmobile riders count on Polaris Engineered Oils & Lubricants™ to withstand sub-zero temperatures, mountain ranges, and rock hard wind drifts at high speed over a grueling 35 hours.

They know Polaris® Engineers rigorously test every fluid before it earns the Polaris Engineered Lubricants™ badge and a spot on the shelf. So inside and out, their sled will be just as strong as their will to win. Whether you're racing across the Alaskan wilderness or just casually riding on a trail, you can be confident there's no better oil for your sled than Polaris Engineered Oils & Lubricants™.

**WE TRUST POLARIS VES OIL IN THE EXTREME 2,000 MILE (3,219 KM) IRON DOG EVENT BECAUSE AMONG ALL THE ISSUES WE FACE, IT'S ONE LESS THING WE HAVE TO WORRY ABOUT.**

— MIKE MORGAN, IRON DOG RACER

### VES

Low-odor, low-smoke oil formulation designed to improve exhaust valve performance. VES offers maximum engine protection.

#### OUR FORMULATION

- Full synthetic formula
- Proprietary anti-wear, corrosion and detergency additive package
- Retains film on critical engine parts after hot shutdown

#### YOUR ADVANTAGE

- Engineering approved for use across all snow engine platforms
- Cleaner burning resulting in extended life of cylinders, pistons, rings & bearings
- Protects engine during periods of non-use or storage
- Reduces pull effort by leaving components lubricated

### VES EXTREME

Engineered, formulated and tested to easily handle the high demands of today's high-performance Polaris® snowmobile engines.

#### OUR FORMULATION

- Full synthetic, 100% PAO and Ester formula
- Highest engine film strength and lubricity protection
- Optimized mixture of heavy and light viscosity base oils and solvents
- Proprietary anti-wear, corrosion and detergency additive package

#### YOUR ADVANTAGE

- Best engine wear protection available for 2-cycle snowmobile engines on the market
- Maintains like-new HP performance throughout engine lifecycle
- Enhanced oil to ensure pins, bearings and all metal-on-metal components are protected
- Highest detergency available for ring lands, undercrown and exhaust valves

### POLARIS® BLUE

Semi-Synthetic 2-cycle engine oil specially formulated for excellent protection and performance in all 2-cycle injector or pre-mix non-VES applications.

#### OUR FORMULATION

- Semi-Synthetic formula
- High lubricity
- Proprietary corrosion additive package

#### YOUR ADVANTAGE

- Excellent cold flow for easier starting down to -70° F (-57° C)
- Prevents rust and corrosion, ring sticking and plug fouling
- Lower total cost of ownership including extending the life of the engine

## OIL DEVELOPMENT

POLARIS INVESTS IN EACH OIL AT AND ABOVE THESE LEVELS.

**12 DEDICATED TEAM MEMBERS**

FOCUSED ON POLARIS OIL

**18+ MONTHS**

DEVELOPMENT & TESTING

**1000+ HOURS**

DYNO TESTING

**40,000 MILES**

FIELD TESTING

**PISTON RINGS AND RING LANDS:** Are they free of carbon deposits and soot? This is important to preserve ring seal and maximum power output.

**PISTON PINS AND NEEDLE BEARINGS:** Proper viscosity and lubricity, film strength and our proprietary additives provide exceptional protection and heat control, maintaining proper pin and bearing tolerances and performance.

**PISTON SKIRT:** Is the Grafal coating scratched or visibly damaged? Harsh contact between the cylinder and piston due to insufficient lubrication would eventually result in engine failure.

# ENGINEERED TO MAXIMIZE THE LIFE OF YOUR RIDE

All Polaris® fluids—from anti-freeze to brake fluid—are developed for your vehicle. Trust the only fluids perfectly engineered for your needs.

## CARBON CLEAN

Polaris® Carbon Clean prevents ethanol corrosion, stabilizes fuel, and cleans carburetor jets and fuel injector nozzles, deposits on piston and rings, intake systems, and combustion chambers. Antioxidants preserve fuel and prevent fuel system gumming.

12 oz. | 2881413

## DOT 4 BRAKE FLUID

Polaris® DOT 4 Brake Fluid is designed for use in Polaris® hydraulic brakes. Superior high-temp characteristics plus anti-corrosion additives extend the life of brake system components.

12 oz. | 2872189

## OIL

Polaris® Blue, VES, and VES Extreme 2-cycle oils are tested to perform, and are the only oils developed specifically for your Polaris® snowmobile engine. Exclusive anti-wear additives protect engine parts with extra rust and corrosion protection.

## SYNTHETIC CHAINCASE LUBE

Unlike typical gear case oils, SCL's unique viscosity range allows instant flow and film protection in extreme cold or high heat environments.

1 Quart | 2873105  
1 Gallon | 2873106  
2.5 Gallon | 2872952

## ANTI-FREEZE

Polaris® Extended Life Anti-Freeze contains organic acid technologies to prevent corrosion on metal components, eliminate scaling, and maximize cooling system performance.

1 Quart | 2880514  
1 Gallon | 2880513  
55-Gallon Drum | 2880512

## ALL-SEASON GREASE

Polaris® All-Season Grease is designed to maintain consistency across a wide range of temperatures. Engineered to protect front and rear suspension components, steering bushings, and driveline bearings.

3 oz. 4-pack | 2871322  
14 oz. | 2871423

## ADVANCED FUEL TREATMENT

Advanced Fuel Treatment prevents ethanol corrosion and stabilizes fuel for up to 2 years. Dual-antioxidant formula protects against gum and varnish for easy starting

12 oz. | 2881416  
2.5 Gal. | 2881417

## VP RACING FUELS

Developed with VP Race Fuels and tested by the Polaris® Factory Race Team to meet the demands of high-horsepower stock and modified racing engines

110 Octane | 5-Gallon Pail | 2880305  
110 Octane | 54-Gallon Drum | 2880304  
114+ Octane | 5-Gallon Pail | 2880307  
114+ Octane | 54-Gallon Drum | 2880306

## SHOCK OIL

Walker Evans® 5wt | 1 Quart | 2874522  
Premium FOX® | 1 Quart | 2870995  
Premium FOX® | 2.5 Gallon | 2872279

## FOGGING OIL

12 oz. | 2870791

## LUBRICANT ACCESSORIES

### GREASE GUN KIT

FITS 2871322 ALL-SEASON AND 2871515 U-JOINT 3 OZ.

2871312 | \$39<sup>99</sup>

### 2D BATTERY-OPERATED SIPHON PUMP

Liquid transfer pumps 5-6 quarts/min. suctioning power.  
Use with gas, water, oil, and other non-corrosive liquids

2830513 | \$16<sup>99</sup>

### FLEX SPOUT

Convenient easy-pour flex spout fits all Polaris® quart, gallon, and 2.5 gallon bottles

2871285 | \$3<sup>99</sup>

### PUMP

ATTACHES TO 1 GALLON BOTTLE FOR EASY, NO-DRIP DISPENSING

2870465 | \$7<sup>99</sup>

## PORTABLE POWER

## POLARIS® FLEX JUMPSTARTER

- 12,000 mAh capacity. Two 5V/2.1A USB outputs, 200-lumen flashlight, and a digital battery life monitor. Includes storage case, smart jumper cables, car charger, wall charger, and user guide. 1-year limited warranty.
- Jumpstart any engine up to 6.4L. The Polaris® Flex Jumpstarter is small enough to be stored in your glovebox and holds its charge so you can count on it when it's needed.

2830495 | \$119<sup>99</sup>

## CLEAN YOUR VEHICLE

### PRE-TREAT

#### MUD SHIELD® PRE-TREATMENT

- Inhibits the adhesion of dirt, mud, and snow, making cleaning your vehicle faster and easier

16 oz. Aerosol | 2830208 | \$9<sup>99</sup>

#### NEVER RUST SPRAY®

- Synthetic formula highly resistant to water protects against rust and corrosion while lubricating metal surfaces

16 oz. Aerosol | 2830209 | \$10<sup>99</sup>

### CLEAN

#### XP WASH®

- Foaming, highly-concentrated wash easily removes the most stubborn and intense dirt build-up

32 oz. | 2830203 | \$10<sup>99</sup>

#### XP SPRAY WASH®

- Effortless biodegradable, high-performance wash ideal for removing dirt, oils, and carbon—simply spray on and spray off

32 oz. | 2830202 | \$12<sup>99</sup>

#### ALL-PURPOSE CLEANER

- Professional-grade, non-streak foam formula cuts through grease, dirt, and film, leaving an invisible, dirt-resistant barrier for long-lasting results

16 oz. | 2830205 | \$9<sup>99</sup>

#### GLASS CLEANER

- Heavy-duty foam non-streak formula cuts through grease, dirt, dried bugs, and film, leaving a crystal-clear, dirt-resistant barrier for long-lasting results

16 oz. | 2830443 | \$4<sup>99</sup>

### SHINE

#### POLARIS® POLISH

- Easy protection and shine—spray on, wipe off, and go. For use on painted and plastic surfaces. Contains carnauba wax

16 oz. | 2830207 | \$7<sup>99</sup>

#### INSTANT SHINE & DETAILER

- Spray and wipe formula—cleans, polishes, and protects plastic and painted surfaces

16 oz. | 2830204 | \$8<sup>99</sup>

## CLEAN YOUR SHOP

### TOWELS

#### POLARIS® SHOP TOWELS

64 ct. | 2830440 | \$4<sup>99</sup>  
200 ct. | 2830402 | \$22<sup>99</sup>  
200 ct. refill | 2830403 | \$15<sup>99</sup>

#### POLARIS® HEAVY DUTY SCRUBBER WIPES-90CT

2830441 | \$19<sup>99</sup>

## VEHICLE

### VEHICLE & EQUIPMENT WASH

- Concentrated professional-grade formula powers through vehicle buildup, dirt, and grease with a spot-free rinse. Treat up to 32 gallons. Biodegradable

1 Gal. | 2830417 | \$16<sup>99</sup>  
5 Gal. | 2830422 | \$59<sup>99</sup>

## SHOP

### ALL-PURPOSE CLEANER PLUS

- Professional-grade formula removes built-up stains from shop floors, work benches, and other hard surfaces. VOC-free, environmentally-friendly, and biodegradable

1 Gal. | 2830414 | \$16<sup>99</sup>  
5 Gal. | 2830416 | \$59<sup>99</sup>

### HD CLEANER & DEGREASER

- Professional-grade, biodegradable, high-foaming formula dissolves and removes tough stains and soils

1 Gal. | 2830418 | \$19<sup>99</sup>  
5 Gal. | 2830420 | \$79<sup>99</sup>

SERVICE PARTS

# LIFT IT SECURELY. LIFT IT SAFELY.

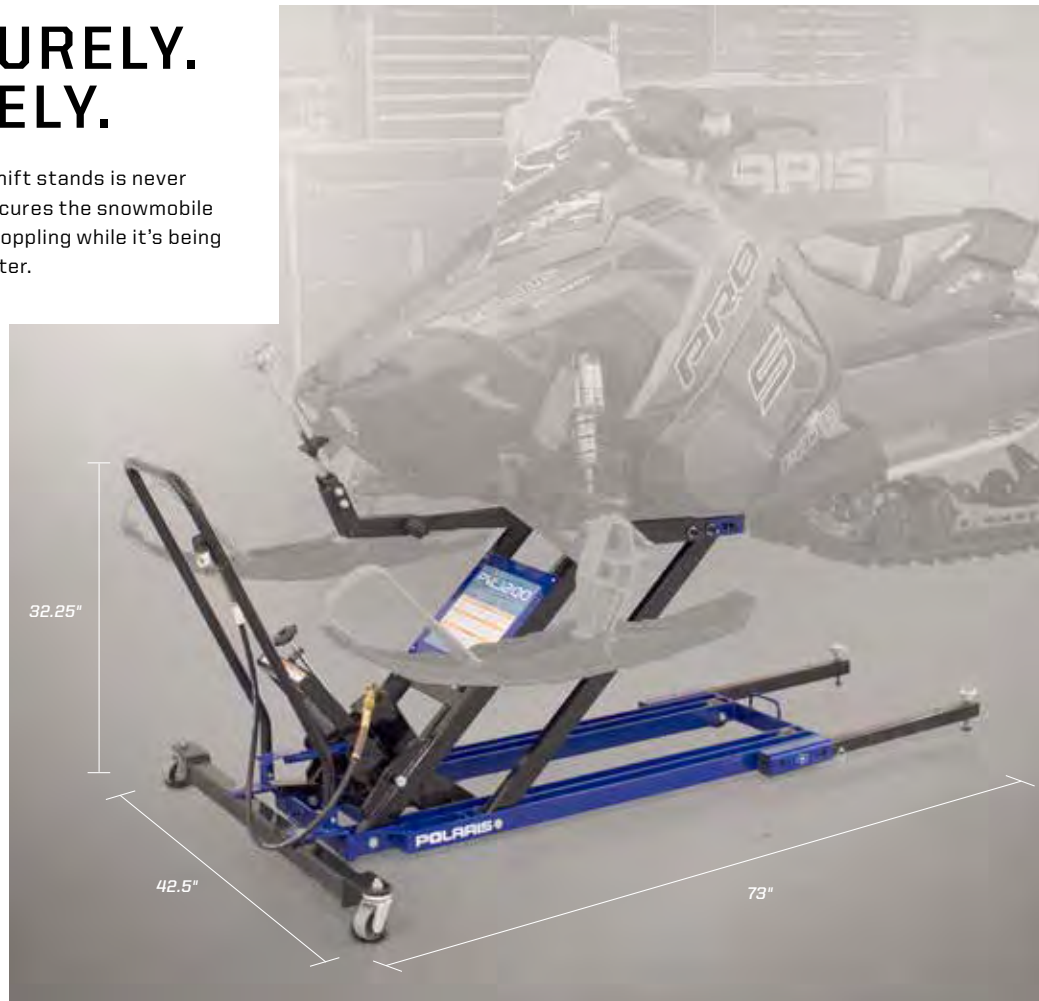

Trying to raise a snowmobile on makeshift stands is never a good idea. The Polaris® Vehicle Lift secures the snowmobile safely, eliminating the risk of the sled toppling while it's being worked on. Work safely, and work smarter.

## POLARIS® VEHICLE LIFT

- Get fast, easy access to the underside of your vehicle
- Manual and pneumatic operation available
- Raises vehicle up to 32" to make repairs & maintenance faster and easier
- Dual-locking safety latch for added safety

1200 LBS  
2830424 | **\$699<sup>99</sup>**

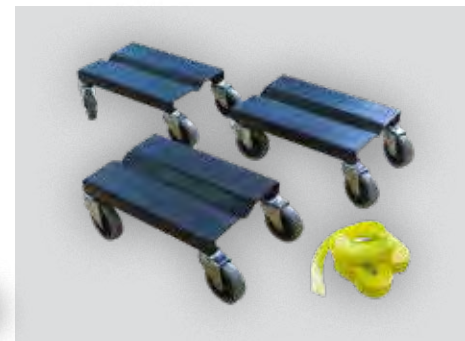

Maintain your sled without adjusting the lift. You can access your belt, track, hyfax, carbides, skis, engine, and shocks. Work more efficiently and comfortably!

## POLARIS® X3 CREEPER

- Three positions: flat, 45-degree angle, or seated work stool
- Helps you perform any repair with ease
- Stay dry and warm away from cold, wet concrete floors
- Easily stores away when not in use

Black | 2830429 | **\$149<sup>99</sup>**

## SNOW DOLLY

- 3" big wheel caster design
- Move your sled around the garage with ease

2882959 | **\$49<sup>99</sup>**

## POLARIS® VEHICLE LIFT ATTACHMENTS

ATV/Polaris Ace® | 2830427 | **\$169<sup>99</sup>**

# BatteryMINDER®

## ENSURE YOUR RIDE IS READY WHEN YOU ARE.

- Add years of capacity, power and range to new and older batteries, regardless of type or brand
- Never over- or under-charged in any temperature
- Leave your vehicle connected for months and return to fully charged and conditioned batteries
- Recover older or weak batteries that would normally need to be replaced
- Charge and maintain extra backup batteries as well as those in your vehicle
- Automatic turn-on, sleeps while keeping your batteries at full charge
- Easy push-button selector to change battery type or time

<b>KEY FEATURES</b>	Designed for high-performance specialty AGM sealed batteries	Diagnoses battery's condition - can predict failing batteries	Easy to use, economical	Convertible on-vehicle or bench top use

## BATTERY MAINTENANCE TIPS

Extend your battery life with a BatteryMINDER® and these tips.

1. Store batteries in a cool, dry location.
2. Check that the battery connections are tight. Cables should not be able to be rotated or shifted by hand.
3. If your battery has a drain tube, make sure it is free of clogs.
4. Clean your battery - use a soft brush to scrub the top of the battery. Use baking soda to remove grease.
5. Connect a BatteryMINDER® after using your vehicle even if the vehicle is in regular use.

**POLARIS ENGINEERED™ SERVICE PARTS DELIVER UNMATCHED PERFORMANCE AND FIT FOR YOUR SLED.**

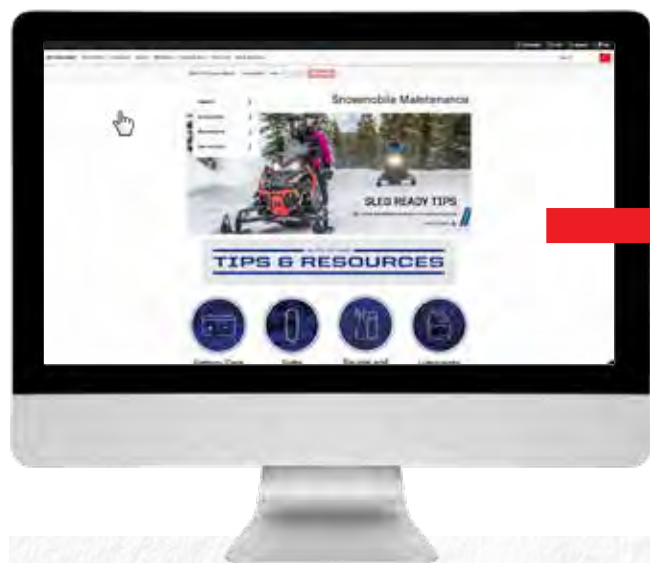

Our engineers at Polaris® create snowmobile parts that push the limits of weight versus strength. We build our parts to feel lighter without sacrificing strength and durability. But over time, your sled will eventually need some service. When we're engineering our high-performance components, we keep serviceability in mind. From a quick clutch inspection to a ski alignment, we build our products as a system, so that anyone with the right tools and training can easily maintain their vehicle from their own garage—and get back on the trails where your snowmobile belongs.

**SHOP FOR SERVICE PARTS ONLINE OR VISIT YOUR POLARIS® DEALER.**
