# RIDING GEAR BORN OF A HIGHER STANDARD.

**INTRODUCING OUR MOST ADVANCED RIDING GEAR EVER!**

It represents years of experience as riders and technical developers that was infused into making an all new lineup of high-performance technical outerwear. Advanced material science is applied to deliver riding gear that will improve your ride. Through our rigorous design and testing process, TECH54™ was born—a new, high-performance membrane featured inside every jacket and bib that offers more waterproof breathability than any other construction and material combination we've developed to date.

**SUPERIOR  
DWR  
COATING**

Superior Durable Water Repellency (DWR) prevents precipitation from saturating the exterior of all outerwear pieces.

**TECH54™  
WATERPROOF  
BREATHABLE**

A waterproof and breathable membrane is bonded to the shell fabric to block moisture from entering while allowing vapor moisture to escape from the inside—keeping you dry in both directions.

**5k/5k  
10k/10k  
RATING**

Different levels of waterproof breathability tailored for different riding styles.

**CRITICALLY  
TAPED  
SEAMS**

Internally taped seams fully block precipitation while retaining breathability.

**INTRODUCING  
TECH54™**

## BORN FROM EXPERIENCE.

Since 1954, Polaris® has been at the forefront of developing newer, better snowmobile technology. As sleds become lighter and faster, and we as consumers become more technical, our apparel must evolve to exceed the demands of today's riders and perform better than ever before. That's why we designed TECH54™. Born in our technical Center of Excellence, engineers and riders worked in close collaboration to prototype, test and develop a material that would be comfortable, waterproof and breathable to meet the unique demands of every rider. The result is apparel that delivers everything riders need and nothing that they don't.

## HOW IT WORKS TO ELEVATE YOUR RIDE.

**5k/5k OR 10k/10k**

**WATERPROOF**

The first number (5k or 10k) refers to the waterproof rating.

**BREATHABILITY**

The second number (5k or 10k) refers to how much water vapor the material can expel through the jacket to release heat—and keep you dry from the inside.

**DIFFERENT RATINGS FOR  
DIFFERENT RIDES**

Products with a TECH54™ 10k/10k rating are designed for our most active riders, while riding gear with a TECH54™ 5k/5k rating is ideal for less active riding. Make your choice based on how hard you exert yourself while riding, or the type of riding you most consistently do.

## DESIGNED

Modern riders demand stylish gear that's fit for the ride and performs in ever-changing elements. Our product designers skillfully use the best components and materials to develop riding gear that performs to your highest standards.

## PROVEN

Polaris Engineered Apparel™ is proven in our advanced development lab and thoroughly tested by the hardest-riding people on the trails and in the backcountry—our team of expert riders, engineers and pro riders.

## TRUSTED

Nobody knows the ride like us. The result of our collaborative design process is a Polaris Engineered™ advantage that lives inside every piece of riding technical gear and accessory we make. Because trust is earned on the snow, where we are at our best.

**TECH54™ IS FEATURED IN  
EVERY POLARIS® JACKET & BIB.**

# OUR MOST EVOLVED RIDING APPAREL EVER.

As riders and snowmobile experts, we know the difference quality apparel makes while riding. Our apparel features the best combination of class-leading technologies that have been continuously tested and refined. Keeping you dry, warm and comfortable in every riding condition is our quality promise to every rider wearing the Polaris® name.

## 509 FOR POLARIS

### SUPERIOR PROTECTION

A trusted name in helmet and goggle manufacturing, 509® helmets utilize advanced materials like carbon fiber for lightweight protection.

## DWR RESIST MOISTURE

Every Polaris® jacket and bib is treated with a superior-rated DWR (Durable Water Repellent) coating to prevent precipitation from saturating the outer fabric, so your gear doesn't get soggy. The DWR coating causes water to bead up and run off, keeping you comfortable and dry.

## TECH54

### WATERPROOF/BREATHABLE

TECH54™ is our single-layer bonded laminate technology that brings waterproof breathability and riding comfort to a new level in every Polaris® jacket and bib.

## YKK ZIPPERS LAST LONGER

The most trusted name in the industry. Quality construction that doesn't fail.

## 3M Thinsulate INSULATION

### BE WARMER

3M® Thinsulate® Insulation is zonally mapped on insulated apparel to provide extra insulation in high wind exposure areas.

## 3M Scotchlite Reflective Material

### RIDE SAFER

Proven in every weather condition, patented 3M® Scotchlite® Reflective Material is placed meticulously on each garment and nighttime tested to ensure rider safety and visibility from every angle.

# LAYERING 101

Polaris® brand outerwear is designed to work together as a smart solution that integrates multiple layers for ultimate performance. We offer a range of innovative products that are designed to deliver comfort, warmth and mobility for every riding style.

### BASE LAYER

Rests against your skin to regulate your overall temperature by wicking away moisture. Must be light, quick-drying and quick-wicking.

### MID-LAYER

Works to pull moisture away while keeping body heat near your skin. Usually a mid-weight layer followed by an outerwear jacket.

### EXTERIOR LAYER

Retains inner warmth, prevents external cold from entering and regulates body temperature by venting moisture and blocking out wind, snow and water.

# FIND YOUR PERFECT HELMET

No matter your riding style or personal preference, Polaris® has the perfect helmet choice for you.

## MOTO

- For maximum ventilation and versatility
- Goggle and lens selection
- Convertible for summer use
- 509® Partnership

## FULL

- Maximum protection from elements
- Full anti-fogging protection
- Wide field of view
- Electric shield optional

### SAFETY RATINGS EXPLAINED

**DOT:** Certification from the United States Department of Transportation

**ECE:** Standards set by the Economic Commission for Europe; similar to the DOT standards

## ULTIMATE PROTECTION FOR RIDERS

Polaris® uses industry-leading technologies and partners to provide options covering all conditions.

**TEKVEST® SUPERSOFT**  
S-3XL  
2862190

**TEKVEST® FREESTYLE**  
S-3XL  
2862189

**TEKVEST® SHOULDER PADS**  
S-3XL  
2862192

## GET THE PERFECT FIT

### MEASURE

Measure the circumference here for the proper fit. Make sure the inner lining fits snugly around your head without causing pain.

### MOVEMENT

Move the helmet side to side. Your scalp should move with it.

### CHINSTRAP

Check with your finger. If properly fit, your finger shouldn't fit between your chin and the strap.

## HOW TO CHOOSE THE PERFECT LENS FOR EVERY LIGHT CONDITION

CARRY MULTIPLE LENSES SO YOU CAN EASILY ADJUST FOR LIGHTING FROM DAWN TO DUSK

CLEAR

- Delivers superior low-light visibility
- Increases contrast in cloudy conditions

YELLOW

- Enhances flat-light terrain definition
- Delivers superior depth perception

SMOKE

- Cuts down brightness without distorting color
- Reduces eyestrain

LENS COATINGS:

MIRRORED

- Reduces glare by reflecting light
- Maintains visibility of LCD readouts
- Paired with lighter tints to offset darkening

POLARIZED

- Substantially reduces glare and blinding
- Blocks horizontal light waves
- Decreases eyestrain
