LOCK & RIDE®

### EASY ON & EASY OFF.

Items with the Lock & Ride® logo feature our exclusive easy-on, easy-off installation technology. Engineer the perfect ride with accessories like storage racks or passenger seats that install quickly and efficiently without tools. And when you don't need them, removal is simple.

## POLARIS® PARTNERS WITH THE BEST

We choose our partners carefully, selecting only the best in snowmobiling. Every accessory is rigorously tested and validated by Polaris® standards to ensure seamless integration.

CALIBER™

Caliber is dedicated to producing the highest quality products to make transporting your snowmobile safe and easy.

ARCTICFX®

The leader in premium custom graphics, Arctic FX is dedicated to delivering the best custom snowmobile graphics in the industry.

CAMSO®

An industry leader in track technology, Camso offers cutting-edge tracks for every snowmobile discipline.

WOODY'S®

Woody's is a leading producer of studs, carbides, and more that deliver unrivaled traction and performance for every kind of ride.

## FIND YOUR PERFECT SIGHTLINE

Blend protection and style with the windshield built just for the type of riding you do most.

**TALL**

The choice when you want maximum wind protection. Perfect for riders who ride in colder conditions often.

**MID**

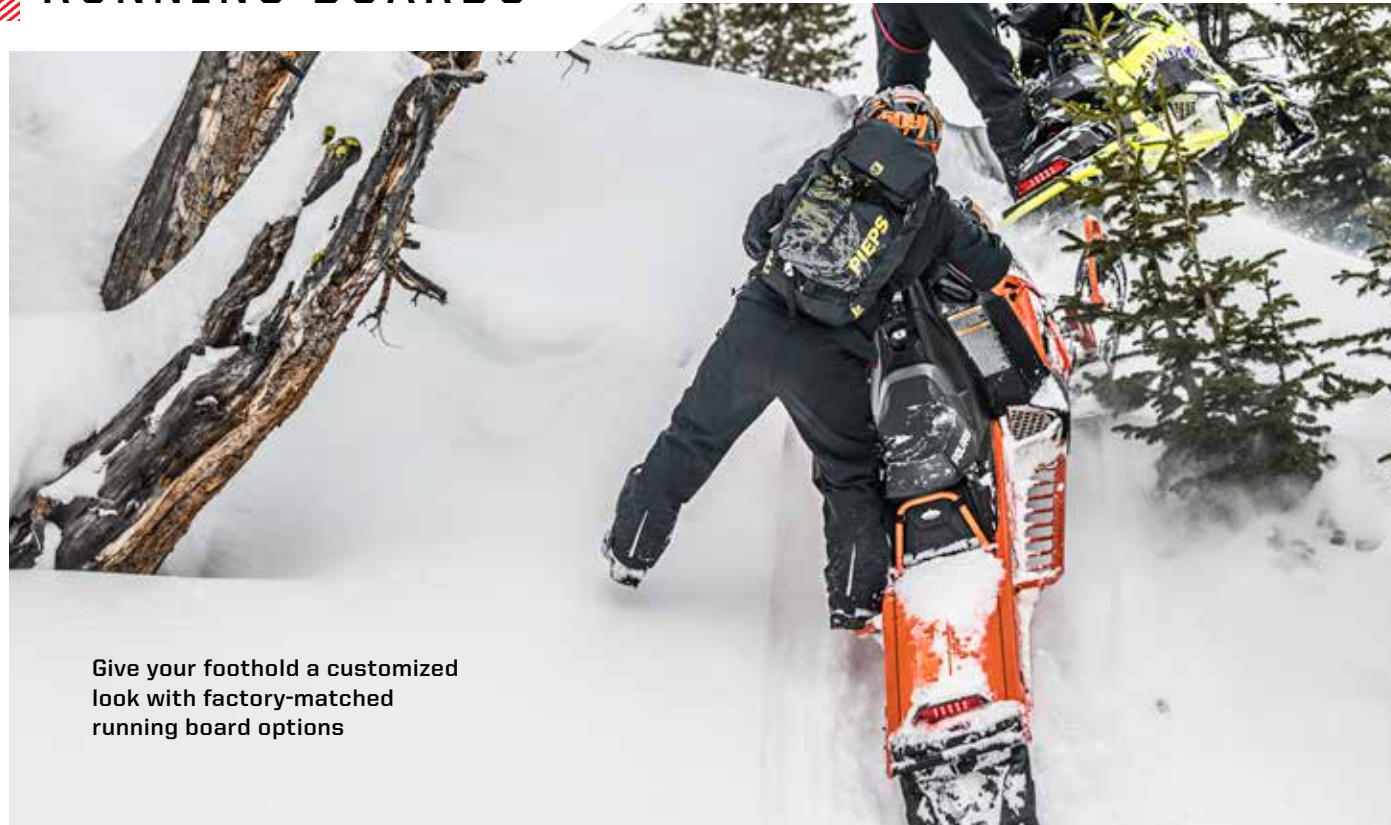

The best of both worlds: a clean look for your sled that also offers wind protection for colder days.

**LOW**

For a sleek, clean look on your sled. Does not affect vision in any way. Great for riders who stand up most of the time.

# RUNNING BOARDS

Give your foothold a customized look with factory-matched running board options

EXTREME 155"/163"

EXTREME 174"

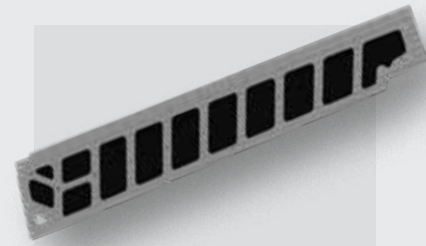

## EXTREME 144"/146" // 155"/163" // 174" **AXYS**

- Design optimizes snow extrusion to prevent ice buildup for optimal rider control and performance
- Secure front and rear attachment with factory-bonded castings
- Removable and serviceable running board assemblies

**SEAMLESSLY  
 ENHANCE YOUR  
 SNOWMOBILING  
 EXPERIENCE**

Pair your P.I.D.D. with the revolutionary Ride Command® app and enhance your snowmobiling experience by connecting with your friends and your sled. Ride Command®, when paired with a P.I.D.D., allows you to plan rides and coordinate with friends before, during, and after your ride. Also, get quick-glance access to critical snowmobile diagnostic info and GPS navigation. It enhances the features of your P.I.D.D. and allows you to get even more from your ride.

**P.I.D.D.**

**POLARIS® INTERACTIVE  
 DIGITAL DISPLAY (P.I.D.D.)**

- Bright, easy-to-read 11 cm full-color LCD screen
- GPS Course Up or North Up option
- GPS Go-to function with distance on map screen
- Exporting capabilities for trip data from the display to USB drive
- TPS, RPM, and ground speed playback for snowmobile tuning, including clutch calibration
- Real-time gauge with speed, RPM, and average MPG
- Phone connectivity shows incoming calls, texts, battery life, and signal
- Toggle through display modes with handlebar control

UNDERCOVER

- Made to go under Polaris® snow covers to provide an additional level of protection
- Soft fabric helps to minimize cosmetic damage caused by chafing
- Easy to install and remove
- Works well as a dust cover when machine is stored inside
- The undercover is separate from the cover, which allows it to be kept clean by machine washing. We recommend using a washing machine bag to contain the elastic and hooks
- Air dry

CONVERTIBLE COVERS

- Expandable zippered areas allow for multiple accessory configurations with a single cover
- Our most rugged snowmobile cover for the most demanding applications
- High-quality canvas fabric and form-fitting design is ideal for towing or storage

CALIBER™ RAMP PRO

The industry's most innovative ramp design for snowmobiles, ATVs, UTVs, and golf carts.

- TOP SELLER
- 132 cm wide and 229 cm long
- 680 kg pound rating

**2883005**  
ALL SNOWMOBILES

ULTIMATE TRACTION AND GLIDE    FINGERS    INTEGRATED FEET

CARBIDES, STUWS & TRACKS

# TRACTION & CONTROL

## RIP WITH AN IRON GRIP.

Riders who demand control require maximum traction. That means adding studs and carbides that provide extra points of contact with the snow and ice. More contact translates to better grip, which creates more overall control of your sled and a supercharged holeshot. For anybody who wants more power or rides over ice like a frozen lake, studs and carbides deliver superior handling, braking, and control.

### THE COMPONENTS OF BETTER TRACTION

#### STUDS

Studs come in varying lengths and sizes depending on the type of sled you ride, the type of track it's equipped with, and are sized based on the depth of the lug on your track. The recommended length is  $\frac{3}{4}$ " -  $\frac{3}{8}$ " more than the lug to ensure proper traction, but not longer because they can be damaged by rock and debris under the snow.

#### TUNNEL PROTECTION

Tunnel protection, or "wear strips", are hard surfaces affixed to the inside of your sled's tunnel to protect the tunnel and heat exchangers from stud damage. Where noted, they are required for anyone who decides to stud their track.

#### CARBIDES

Carbides attach to the skis on your sled to improve steering control across a wide variety of trail conditions with the least amount of effort required by the rider. When studding your track, you should increase the length of your carbide to ensure proper turning.

## TUNNEL PROTECTION

Indy Evo™	MY19	2879830

## CARBIDE WEAR STRIPS

Carbides need to be sharpened or replaced periodically due to normal wear and use. Rocks, cement, pavement, and road crossings all contribute to carbide wear.

3" - 4" CARBIDE

- Perfect for sleds with a 121" track with 96 studs or less or sleds with 1" lugs taking corners at moderate speeds.

6" CARBIDE

- Ideal for sleds in the 136" track range with up to 1 1/4" lugs or shorter track sleds with more than 96 studs.

8" CARBIDE

- Best for ultimate performance sleds with a 144" track or longer with paddles and/or the maximum amount of studs.

### CHOOSE YOUR LENGTH

#### SINGLE RUNNER

Provides known reliability, handling, and control.

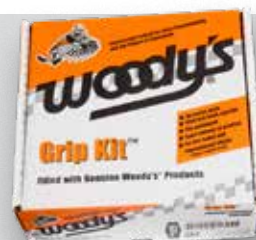

SKI	NOTE	3"	4"	6"	6"	8"

# THE 4 KEYS TO TRACK SELECTION

## LENGTH

The inside circumference of the track is calculated as the drive pitch multiplied by the number of track segments. It must be correct to the nearest inch for proper fit without additional modifications to the skid frame.

## DRIVE PITCH

The drive cog center distance around the circumference of the cogs on the drive axle. It must match the existing track or the drive cogs must be changed.

- 2.52" drive pitch primarily machines manufactured before 2007
- 2.86" drive pitch especially on recent models manufactured after 2007
- 3" and new 3.5" drive pitch for lowest weight on select mountain sleds

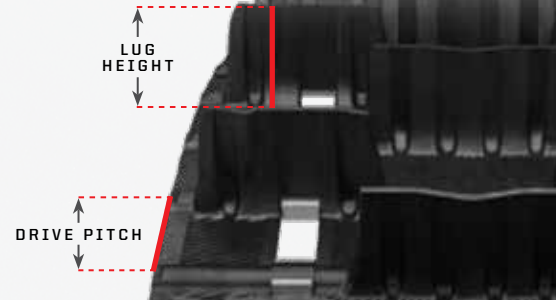

## WIDTH

The measurement across the track governed by the width of the tunnel.

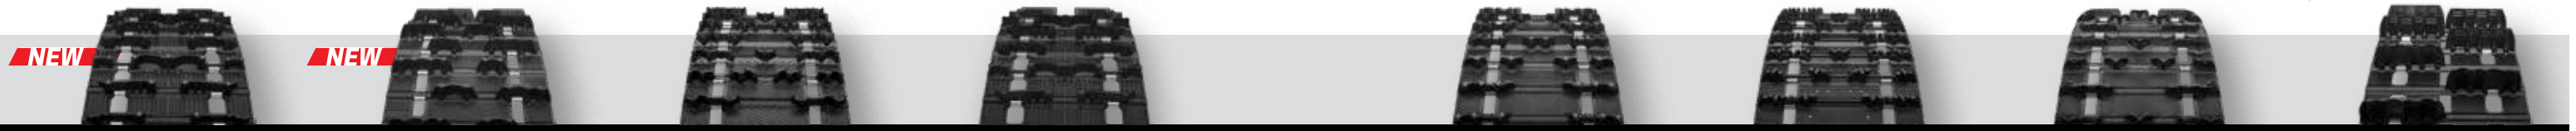

## LUG HEIGHT

The distance lugs extend above the track surface.

- Trail: 1" - <1.5"
- On/Off Trail: 1.5" - <2"
- Deep Snow: 2" and greater

## TRAIL

### ICE STORM 150

- Two-height lug design offers deep snow flotation with handlebar-gripping acceleration
- Factory pre-studded for improved traction and control on icy conditions
- 1.25" outer lugs and 1.5" cup-shaped center lugs provide power and traction on packed trails and turns

LENGTH	PITCH	LUG HEIGHT	
120"	2.86"	1.25"	2839388
129"	2.86"	1.25"	2839389
137"	2.86"	1.25"	2839390
146"	2.86"	1.25"	2839391

### HURRICANE

- Designed based on mountain tracks, it provides off-trail performance in deep snow while maintaining on-trail agility
- 1.75" cupped profile design provides unparalleled grip in the backcountry
- 1.75" tall lug profile design reduces vibration, applying more power to the ground

LENGTH	PITCH	LUG HEIGHT	
120"	2.86"	1.75"	2839400
129"	2.86"	1.75"	2839401
137"	2.86"	1.75"	2839402
146"	2.86"	1.75"	2839403

### COBRA

- Cupped lugs for superior acceleration and braking in loose, soft snow conditions
- Flexible lug design for superior off-trail performance

LENGTH	PITCH	LUG HEIGHT	
120"	2.86"	1.352"	2839284
121"	2.52"	1.352"	2839052
129"	2.86"	1.352"	2839235
136"	2.52"	1.352"	2839061
137"	2.86"	1.352"	2839307
137"	2.86"	1.352"	5413661
144"	2.52"	1.352"	2839107
144"	2.86"	2.52"	5414013
144"	2.86"	1.6"	5416162
155"	2.86"	1.5"	5415826
155"	2.86"	1.8"	5416020

### STORM 150

- 1.25" outer lugs provide power through the tightest turns with ease, maintaining momentum and rider control
- 1.5" cup-shaped center lugs provide deep snow flotation, and gut-wrenching acceleration on packed trails
- Optimized support columns provide the right balance of lug rigidity and flex for performance across the entire power band

LENGTH	PITCH	LUG HEIGHT	
120"	2.86"	1.25"/1.5"	2839368
129"	2.86"	1.25"/1.5"	2839369
137"	2.86"	1.25"/1.5"	2839370
146"	2.86"	1.25"/1.5"	2839371

## CROSSOVER

### BACKCOUNTRY

- Arched lug design with staggered, snocross-inspired pattern for excellent soft-snow traction

LENGTH	PITCH	LUG HEIGHT	
120"	2.52"	1.75"	5414894
121"	2.52"	1.75"	2839140
121"	2.52"	1.75"	5415097
136"	2.52"	1.75"	2839142

- 2.6" lugs provide outstanding traction in all deep snow conditions
- Design provides outstanding flotation and control

LENGTH	PITCH	LUG HEIGHT	
155"	2.86"	2.6"	5415391

### SERIES 5.1

- Industry-leading deep powder track; for 8T drive sprockets, 2.86" pitch
- Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- Soft and flexible tips for superior performance in deep snow

LENGTH	PITCH	LUG HEIGHT	
155"	2.86"	2.4"	5413622
163"	2.86"	2.4"	5413621

### PEAK 2.25

- Angular lugs bite and funnel snow under the snowmobile for outstanding flotation
- Features soft lugs for powder snow and hard lugs for heavy/wet snow
- Outer lug bars deliver better lateral control for improved handling

LENGTH	PITCH	LUG HEIGHT	
155"	2.86"	2.25"	5415002

### SERIES 5.2

- Modeled after the modified Series 5.1 track used by Polaris® hillclimb racers
- Provides great traction both on and off trail
- Maintains excellent durability
- Optimized lug pattern for more forward lug contact

LENGTH	PITCH	LUG HEIGHT	
146"	2.86"	2.25"	5416498

### SERIES 4

- The standard in 2" deep snow tracks; for 9T drive sprockets, 2.52" pitch
- Equal parts versatility and durability
- Stiff lug base for long wear and hard-pack performance
- Soft and flexible tips for superior performance in deep snow

LENGTH	PITCH	LUG HEIGHT	
144"	2.52"	2"	5413073
144"	2.52"	2"	5415692

### SHOCKWAVE

- Designed for hard-working, utility applications
- Able to handle heavy workloads in deep-snow, off-trail environments
- Tackles on-trail, hardpacked applications, too
- 1" lug height with 2.52" pitch

LENGTH	PITCH	LUG HEIGHT	
156"	2.52"	1"	5414453

### COMPETITION TRACK

- Customized for snocross competition
- Developed for, and tested by, top Polaris® racers

LENGTH	PITCH	LUG HEIGHT	
155"	2.86"	2.1"	2877304

### YOUTH 120

- Replacement track for the Polaris® 120 INDY®

LENGTH	PITCH	LUG HEIGHT	
68"	2.55"	.71"	5411751

# FOR THE LIFE OF YOUR RIDE

Maintenance is the key to keeping your Polaris® snowmobile performing at its peak. Items like belts, lubricants, and batteries represent only a few of these critical items engineered specifically by Polaris.

## DRIVE BELTS

Polaris Engineered® belts deliver unmatched performance for your snowmobile. Developed and tested on all our engines for all environments and conditions. Check your belt for delamination, hour glassing and glazing.

### BREAK-IN PERIOD

The break-in period for a new belt is 80.5 kilometers. During this time, vary at moderate speeds while avoiding wide open throttle.

## SPARK PLUGS

Spark plugs perform optimally with a sharp edge on the electrode for electrons to discharge from. When the edge starts to round, you should change the spark plug, about once per year.

## BATTERIES

Never leave a battery unattended during the storage season. To ensure your battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a BatteryMINDER®. Be sure to check for corrosion from the terminals to the ends of the cables.

## CARBIDES

Worn skis, skags or carbides will adversely affect handling. Inspect your carbides for bends in the host bar (which can cause wandering), sharp edges, chips or cracks (which cause darting), and blunt/square edges that may cause catch hazards. Replace your carbides when you detect any of these conditions.

## TRACKS

Tracks are your key connection to the snow. Through use, they can accrue damage and wear out. Tracks should be checked regularly for weathering and dry-rotting and replaced immediately if damage is found.

## STUDS

Studs can bend, break, or pull through a track with extended, hard riding. Inspect your tracks regularly and replace studs as they wear down. If the track is torn around the stud hole, the track may need replacing.

## RAIL SLIDERS

Rail sliders wear out over time in normal riding conditions. Check the wear line on your rail to see if it needs replacing. They should typically be replaced once a year.

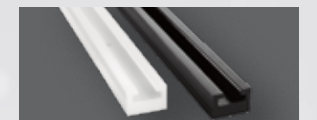

## MAINTENANCE

**BATTERIES**

5521633-070                5522144-070

**TIPS:** Operating the vehicle immediately after cold starting could cause engine damage. Allow the engine to warm up for several minutes before operating the vehicle. If cold drive away is attempted, the engine RPM may stumble slightly to protect the engine.

STANDARD BELT	1.29" (32.77mm)	42.48"	3211154 (550cc)

\*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset, and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

## POLARIS ENGINEERED™ DRIVE BELTS

### OUR INVESTMENT

- 32,187 kilometers of field testing
- Thousands of dyno hours
- 18+ months of development (3,000+ design hours) per belt
- 1200+ vehicle validation hours
- Collaboration with powertrain & clutch engineers

### YOUR ADVANTAGE

- No clutch recalibration
- Less wear & tear due to heat
- Ensure maximum performance of your vehicle
- More time out riding, less time wrenching

## MAINTENANCE SCHEDULE

CHECK YOUR OWNER'S MANUAL FOR ADDITIONAL RECOMMENDED SERVICE ITEMS AND VEHICLE-SPECIFIC TIMING

### PRE-SEASON

**ENGINE OIL:**  
FILL TO RECOMMENDED LEVEL

**GENERAL LUBRICATION:**  
ALL FITTINGS, PIVOTS, CABLES, ETC.

**CHECK FOR WEAR:**  
TEST, CLEAN & CHECK FLUID LEVELS  
SPARK PLUGS, TRACK, SLIDER, DRIVE BELT & CARBIDES

### IN-SEASON

**ENGINE OIL:**  
FILL TO RECOMMENDED LEVEL

**DRIVE BELT:**  
INSPECT & ADJUST  
FOLLOW BREAK-IN PROCEDURE AFTER INSTALLATION

**TRANSMISSION FLUID:**  
CHANGE

### IN-SEASON

**ENGINE OIL:**  
FILL TO RECOMMENDED LEVEL

**CHECK FOR WEAR:**  
TEST, CLEAN & CHECK FLUID LEVELS  
SPARK PLUGS, TRACK, SLIDER, DRIVE BELT & CARBIDES

**DRIVE BELT:**  
INSPECT & ADJUST  
REPLACE AS NEEDED

### END OF SEASON

**DRIVE BELT:**  
REMOVE  
CONSULT OWNER'S MANUAL

**FUEL:**  
ADD FUEL STABILIZER

**TRACK:**  
INSPECT  
REDUCE TENSION DURING STORAGE

**BATTERY:**  
REMOVE

**FOR THE LIFE OF YOUR RIDE, ONLY THE BEST WILL DO.**

In the continued pursuit of creating the best oil on snow, we invest in rigorous testing to ensure our oil delivers unrivaled consistency and performance. The result are Polaris Engineered Lubricants™ that are tested and perfected to deliver excellent total engine protection for the life of your ride.

*Oil and cleaners featured are for EU distribution only. For other availability, contact your local dealer.*

**OIL FOR EVERY SLED, PROVEN IN THE TOUGHEST RACE.**

When you're flying across 3,219 kilometers of Alaskan tundra, racing riders and the bitter winter wind to seize your immortal moment, you need equipment you can count on. Iron Dog® snowmobile riders count on Polaris Engineered Oils & Lubricants™ to withstand sub-zero temperatures, mountain ranges, and rock hard wind drifts at high speed over a grueling 35 hours.

They know Polaris® Engineers rigorously test every fluid before it earns the Polaris Engineered Lubricants™ badge and a spot on the shelf. So inside and out, their sled will be just as strong as their will to win. Whether you're racing across the Alaskan wilderness or just casually riding on a trail, you can be confident there's no better oil for your sled than Polaris Engineered Oils & Lubricants™.

**WE TRUST POLARIS VES OIL IN THE EXTREME 2,000 MILE (3,219 KM) IRON DOG EVENT BECAUSE AMONG ALL THE ISSUES WE FACE, IT'S ONE LESS THING WE HAVE TO WORRY ABOUT.**

— MIKE MORGAN, IRON DOG RACER

**VES**

Low-odor, low-smoke oil formulation designed to improve exhaust valve performance. VES offers maximum engine protection.

**OUR FORMULATION**

- Synthetic Performance formula
- Proprietary anti-wear, corrosion and detergency additive package
- Retains film on critical engine parts after hot shutdown

**YOUR ADVANTAGE**

- Engineering approved for use across all snow engine platforms
- Cleaner burning resulting in extended life of cylinders, pistons, rings & bearings
- Protects engine during periods of non-use or storage
- Reduces pull effort by leaving components lubricated

**VES EXTREME**

Engineered, formulated and tested to easily handle the high demands of today's high-performance Polaris® snowmobile engines.

**OUR FORMULATION**

- Full synthetic, 100% PAO and Ester formula
- Highest engine film strength and lubricity protection
- Optimized mixture of heavy and light viscosity base oils and solvents
- Proprietary anti-wear, corrosion and detergency additive package

**YOUR ADVANTAGE**

- Best engine wear protection available for 2-cycle snowmobile engines on the market
- Maintains like-new HP performance throughout engine lifecycle
- Enhanced oil to ensure pins, bearings and all metal-on-metal components are protected
- Highest detergency available for ring lands, undercrown and exhaust valves

**POLARIS® BLUE**

Synthetic Blend engine oil specially formulated for excellent protection and performance in all 2-cycle injector or pre-mix non-VES applications.

**OUR FORMULATION**

- Synthetic Blend formula
- High lubricity
- Proprietary corrosion additive package

**YOUR ADVANTAGE**

- Excellent cold flow for easier starting down to -70° F (-40° C)
- Prevents rust and corrosion, ring sticking and plug fouling
- Lower total cost of ownership including extending the life of the engine

**OIL DEVELOPMENT**  
POLARIS INVESTS IN EACH OIL AT AND ABOVE THESE LEVELS.

**12 DEDICATED TEAM MEMBERS**

**FOCUSED ON POLARIS OIL**

**18+ MONTHS**

**DEVELOPMENT & TESTING**

**1000+ HOURS**

**DYNO TESTING**

**64,374 KILOMETERS**

**FIELD TESTING**

**PISTON RINGS AND RING LANDS:** Are they free of carbon deposits and soot? This is important to preserve ring seal and maximum power output.

**PISTON PINS AND NEEDLE BEARINGS:** Proper viscosity and lubricity, film strength and our proprietary additives provide exceptional protection and heat control, maintaining proper pin and bearing tolerances and performance.

**PISTON SKIRT:** Is the Grafal coating scratched or visibly damaged? Harsh contact between the cylinder and piston due to insufficient lubrication would eventually result in engine failure.

# ENGINEERED TO MAXIMIZE THE LIFE OF YOUR RIDE

All Polaris® fluids—from anti-freeze to brake fluid—are developed for your vehicle. Trust the only fluids perfectly engineered for your needs.

## CARBON CLEAN

Polaris® Carbon Clean prevents ethanol corrosion, stabilizes fuel, and cleans carburetor jets and fuel injector nozzles, deposits on piston and rings, intake systems, and combustion chambers. Antioxidants preserve fuel and prevent fuel system gumming.

125 ml | 502528

## DOT 4 BRAKE FLUID

Polaris® DOT 4 Brake Fluid is designed for use in Polaris® hydraulic brakes. Superior high-temp characteristics plus anti-corrosion additives extend the life of brake system components.

250 ml | 502526  
198 L | 502527

## OIL

Polaris® Blue, VES, and VES Extreme 2-cycle oils are tested to perform, and are the only oils developed specifically for your Polaris® snowmobile engine. Exclusive anti-wear additives protect engine parts with extra rust and corrosion protection.

## ALL-SEASON GREASE

Polaris® All-Season Grease is designed to maintain consistency across a wide range of temperatures. Engineered to protect front and rear suspension components, steering bushings, and driveline bearings.

400 gr | 502538  
185 kg | 502539

## SYNTHETIC CHAINCASE LUBE

Unlike typical gear case oils, SCL's unique viscosity range allows instant flow and film protection in extreme cold or high heat environments.

1L | 502560  
25 L | 502561  
201L | 502562

## ANTI-FREEZE

Polaris® Extended Life Anti-Freeze contains organic acid technologies to prevent corrosion on metal components, eliminate scaling, and maximize cooling system performance.

1L | 502566  
25 L | 502567  
206 L | 502568

## FUEL STABILIZER

Advanced Fuel Treatment prevents ethanol corrosion and stabilizes fuel for up to 2 years. Dual-antioxidant formula protects against gum and varnish for easy starting

125 ml | 502519

## SHOCK OIL

1L | 502518

# CLEAN YOUR VEHICLE

## CLEAN

### ALL-PURPOSE CLEANER

Professional grade, non-streak and biodegradable universal cleaner for the whole sled  
500 ml | 502533

## SHINE

### INSTANT SHINE & DETAILER

Quick and protective cleaning for a sparkling clean result. Polaris Instant Shine and Detailer does not need additional water! Ideal for plastics, glass, varnishes, metals as well as windscreens and visors  
500 ml | 502546

Oil and cleaners featured are for EU distribution only. For other availability, contact your local dealer.

# LIFT IT SECURELY. LIFT IT SAFELY.

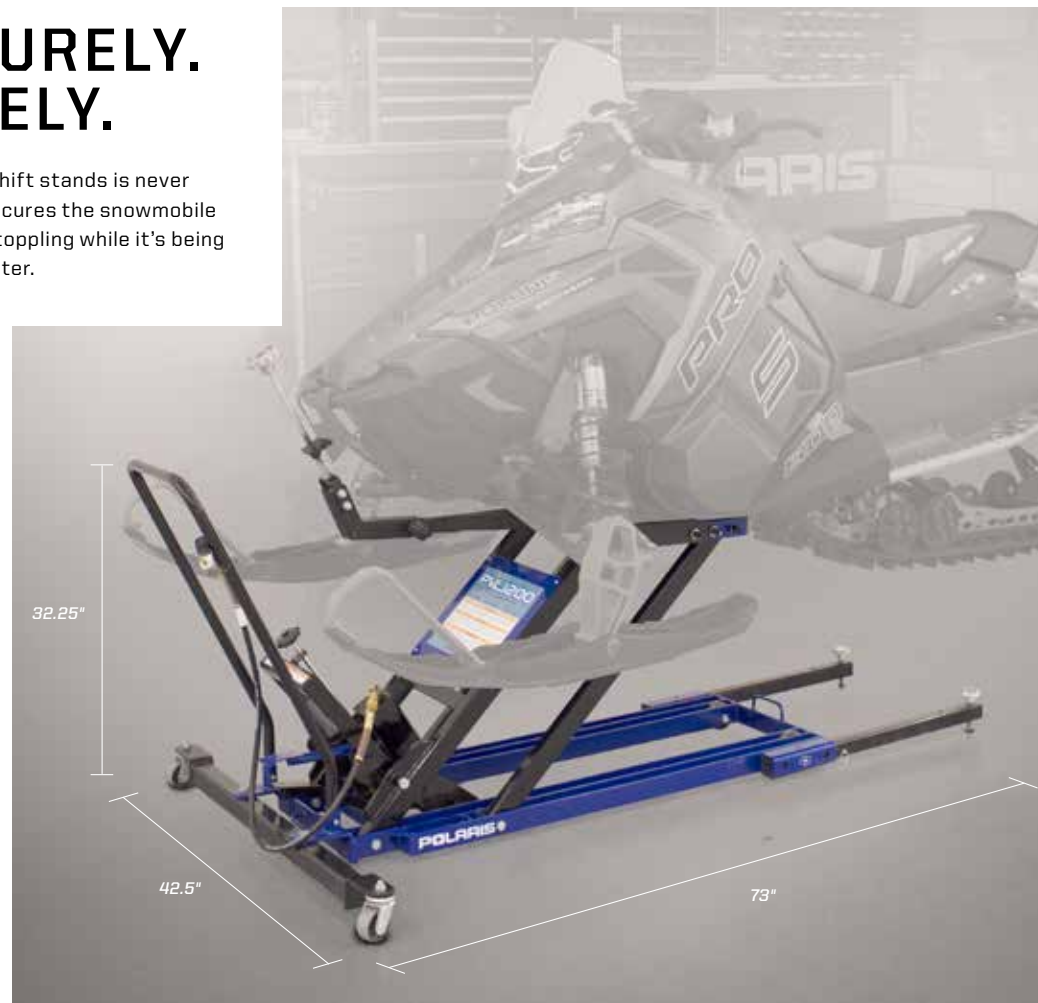

Trying to raise a snowmobile on makeshift stands is never a good idea. The Polaris® Vehicle Lift secures the snowmobile safely, eliminating the risk of the sled toppling while it's being worked on. Work safely, and work smarter.

## POLARIS® VEHICLE LIFT

- Get fast, easy access to the underside of your vehicle
- Manual and pneumatic operation available
- Raises vehicle up to 32" to make repairs & maintenance faster and easier
- Dual-locking safety latch for added safety

1200 LBS  
2830424

Maintain your sled without adjusting the lift. You can access your belt, track, hyfax, carbides, skis, engine, and shocks. Work more efficiently and comfortably!

## POLARIS® VEHICLE LIFT ATTACHMENTS

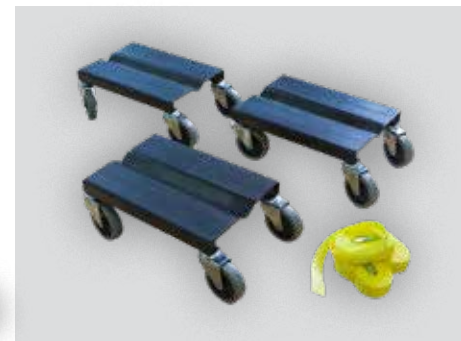

ATV/Polaris Ace® | 2830427  
Polaris® Snowmobile | 2830426

## POLARIS® X3 CREEPER

- Three positions: flat, 45-degree angle, or seated work stool
- Helps you perform any repair with ease
- Stay dry and warm away from cold, wet concrete floors
- Easily stores away when not in use

Black | 2830429

## SNOW DOLLY

- 3" big wheel caster design
- Move your sled around the garage with ease

2882959

## POLARIS® MAGNETIC PARTS TRAY

Silver | 2830432

## POLARIS® 84 CM TELESCOPIC MAGNET

Black | 2830435

## POLARIS® 30.5 CM HI- TORQUE RATCHETING DRIVER

Black/Blue | 2830434

## POLARIS® LED POCKET FLASHLIGHT

Black | 2830436

## SERVICE PARTS

# OVER 100,000 PARTS AVAILABLE!

## POLARIS ENGINEERED SERVICE PARTS DELIVER UNMATCHED PERFORMANCE AND FIT FOR YOUR SLED.

Our engineers at Polaris® create snowmobile parts that push the limits of weight versus strength. We build our parts to feel lighter without sacrificing strength and durability. But over time, your sled will eventually need some service. When we're engineering our high-performance components, we keep serviceability in mind. From a quick clutch inspection to a ski alignment, we build our products as a system, so that anyone with the right tools and training can easily maintain their vehicle from their own garage—and get back on the trails where your snowmobile belongs.
